SUBJECT: **Incomplete Encroachment Application, L95S5884**

Dear Mr. Condon:

Idaho Department of Lands (IDL) has reviewed your encroachment application for winter storage and to also have a year-round commercial dock work area. The application is incomplete as submitted and cannot be processed without further information. Subsection 020.07 of IDAPA 20.03.04 (Rules Governing the Regulation of Beds, Waters, and Airspace Over Navigable Lakes in Idaho) states that incomplete applications may not be accepted for filing. The following information is required before the application can be considered complete:

1. **404 Joint Application for Permits.** Please provide additional information on this application and make sure it is fully completed. Questions: (9.) Tax Parcel ID# - provide the Littoral Rights that will be used for this application. (11c -e) Section, Township and Range of this proposed encroachment. (16.) Detailed Description of Each Activity with overall Project – this narrative will need to clearly state amounts of acres and or feet of area will be used during each use.

2. **Lake Profile Drawing.** Lakebed profile in relationship to the proposed encroachment. The lakebed profile shall show the summer and winter water levels. **IDAPA 20.03.04.020.07.a.i.**

3. **Encroachments Not in Aid to Navigation.** Encroachments not in aid of navigation in navigable lakes will normally not be approved by the Department and will be considered only in cases involving major environmental, economic, or social benefits to the general public. Approval under these circumstances is authorized only when consistent with the public trust doctrine and when there is no other feasible alternative with less impact on public trust values. **IDAPA 20.03.04.030.02.** Please provide a brief project narrative that will meet this rule for each project.

Please provide the above information within 30 days of receiving this letter. If the information is not received within this 30 day period, then your application may be denied due to a lack of the information required by Section 020 of IDAPA 20.03.04. A new application, and application fee, could then be required to restart the permitting process.

If you have any questions pertaining to the above information, please call me at 208-769-1577 or email afuson@idl.idaho.gov .

Sincerely,

Amidy Fuson, Lands Resource Specialist Sr.,
Lands & Waterways
