7/12/20

Dear Idaho Department of Lands,

Hi! I'm Alexandra Namson, a recent graduate from LCHS. I was writing to you and your office to say that I don't think you should approve a commercial permit for Wolf Lodge Bay. As a new adult, I though that maybe I should voice my opinions about something I felt strongly about; I feel strongly that Coeur d'Alene and its lake would be a better place if Wolf Lodge Bay was never developed. As I grew up here, I couldn't help but see how much of the lake and the lakeshore has been developed. Wolf Lodge Bay always seemed like a little oasis between all of the cabins and buildings that have been built. I know you've probably heard from others that it might hurt the flora and fauna that have developed in the area; I won't waste your time in repeating that. As a community member, I think it would be a great shame if Wolf Lodge Bay was developed.

Thank you for taking the time to consider my thoughts!

Alexandra Namson
