

# Development Risk based on Estimated Changes in Housing Density within Idaho

## Development Risk

### Disclaimer:

This map has been compiled using the best information available to the Idaho Department of Lands at the time and may be updated and or revised without notice. In situations where known accuracy and completeness is required, the user has the responsibility to verify the accuracy of the map and the underlying data sources.

The development risk in Idaho layer was developed using estimated housing density data from 2030 subtracted from housing density data from 2000. The original data layer source for housing density data was produced by Dr. David Theobald at Colorado State University, March 10, 2008.
