May 1, 2008

Members of Forest Products Industry
 Prospective Purchasers
 Other Interested Parties

It is our pleasure to inform you that a listing of timber sales in your area, which the State of Idaho may offer at public auction during the period July 1, 2008, to June 30, 2009, is now available for your review at the Idaho Department of Lands website at www.idl.idaho.gov.

The indicated volumes for the following supervisory areas are approximations and may change upon more detailed examination and sale preparation.

Area	Sawlogs (MBF)	Cedar Poles (Pcs)	Pulp (MBF)	Cedar Products (MBF)
Priest Lake	17,000			
Kootenai Valley	5,000			
Pend Oreille Lake	13,000			
Mica	5,000			
Cataldo	7,000			90
St. Joe	40,300	8,500		705
Ponderosa	28,000	5,000		
Clearwater	31,540	7,300		
Maggie Creek	27,000		9,700	
Craig Mountain	3,000			
Payette Lakes	25,000			
Southwest	11,000			
Eastern Idaho	5,000			
Totals	217,840	20,800	9,700	795

Should you need a paper copy of these plans or wish more detailed information on any particular sale, please feel free to contact your nearest Idaho Department of Lands office.

Sincerely,

GEORGE B. BACON
 Director

Art Work by

Thom Hawkins

Craig Mountain Area Manager

TYPES OF SALES

Timber Sales

Timber sales contain a net appraised volume of at least 1,000 MBF and exceed the net appraised value for salvage sales established by the state board of land commissioners. Timber sales are designed to produce maximum stumpage returns to the endowment funds consistent with prudent long-term management practices.

Timber sales are advertised for four weeks in a newspaper in the county where the sale is located, and are sold at public auction.

Salvage Sales

Salvage sales shall not exceed the net appraised value and volume established by the state board of land commissioners and are intended to be used in the harvesting of timber which, in the opinion of the director, is of insufficient quality and/or quantity to support a timber sale. The contract requirements for salvage sales shall be the same as for timber sales.

Salvage sales are advertised for one week in a newspaper in the county where the sale is located, and are sold at public auction.

Direct Sales

Direct Sale net appraised value does not exceed the maximum value established by the state board of land commissioners. This type of sale is to be used to harvest isolated or by-passed parcels of timber of insufficient value and volume to justify a salvage sale. The direct sale shall not be used where two or more potential purchasers may be interested in bidding on the forest products offered for sale.

The direct sale of forest products is made without advertisement as authorized by the director.

For timber sale information, contact the respective Area office as shown in the list below. See the following page for a map of the Supervisory Area boundaries.
