Hi Sandra,

I had a suggestion for wording in 100.03.05 of the rules. Could you add "if there are less than 30 calendar days before the seismic operations are to begin a waiver of the 30 calendar days can be granted if agreed to by the permit holder and the land owner/occupant ". This might address Mr.Christian's concern about a last minute permit signing. Thanks!

Nice to see you again!

Mary Sue
