Subject: Oil and gas violations in Idaho
Date: Tuesday, October 25, 2016 10:44:33 AM

I strongly object to the spreading of hazardous waste on agricultural fields, and the lack of reporting 100% of the chemicals used on the fields . The oil and gas industry needs to cover all damages that their trucks do to the roads monitored by independent metering and instant reporting.

Please help keep Idaho from being ravaged by these industries that care only for making money off our beautiful state.

Thank you.
