Hello Amidy,

Here are scaled drawings showing the ordinary high-water mark traced in green. The Blue line shows the side of the dock that would be 25' from the littoral line. The littoral lines are in red. I also drew a line between the two littoral lines with a rough distance between the two. I included a close up of the Olinger/JYD LL. The third attachment has the distances to the neighboring encroachments. This should cover everything up to date.

Thanks for everything.

Good morning Scott,

I wanted to follow up to confirm that you received the email below regarding the requested updated materials.

While a specific deadline was not included previously, this matter is time-sensitive. The adjacent property owners (the Yanceys) have indicated concerns and may submit a formal objection, as today is the final day of the comment period. The Department's goal is to resolve these concerns, if possible, prior to referral to the hearing officer.

To allow the Department adequate time to review the materials and work toward a resolution that meets our rules, please provide the requested information no later than Monday, January 12, 2026.

If you have any questions regarding the requested items, please let me know.

Thank you for your prompt attention to this matter.

Thanks,
