Hello Megan,

I was asked to give my opinion on the current dock expansion that is currently under consideration. My name is Steve Lowry and we are the owners/ users of dock 41 which is nearest to the proposed expansion. As a former board member and current dock committee member I would like to add my name to those who are in favor of this project.

Over the past several years we on the dock committee have gone through various locations for the new docks to be installed and have been met with opposition from some members on every location suggested. It's time we end this seemingly endless merry go round and approve this project so we can move on to other projects that need attention. Thank you for your time and consideration of this project.

Yours truly,

Steve Lowry
