Subject: Case No. PH-2020-PUB-22-001
Date: Wednesday, April 01, 2020 12:18:11 PM

We are IN FAVOR of granting the dredging permit requested by Howard Rude in the Spokane River.

We own the two waterfront properties immediately west of the subject property. The area in question has extremely shallow water depths on the land north of our property boundaries when the river is at summer level.

We have full confidence that Mr. Rude would proceed with the utmost care if this permit was granted.
