Comment:

This comment is in regards to the reviewing of the permit application to commercially develop the Wolf Lodge bay area. As a resident of Coeur d'Alene, my comment is a request to deny the permit application due to both the prospective environmental damage and to prevent further gentrification of Coeur d'Alene and the surrounding areas. The cost of living increases the more we commercially develop the area improperly, and the US Bureau of Labor Statistics has already determined that the citizens of the area earn significantly less than the national averages although the cost of living is higher than comparable metropolitan areas in the region.
