Comment:
To whom it may concern,

We live at 1951 E. Upper Hayden Lake Road, Hayden Idaho which is the first property on the north side of Upper Hayden Lake Road after it branches off from Hayden Lake Road. Our home has a view of Hayden Lane and the dock used by North Idaho Maritime for their Hayden Lake operations.

The purpose of this letter is to inform interested parties that our observations of the operations of North Idaho Maritime on Hayden Lake have been positive and to convey that we consider them to be good neighbors. We believe that NIMS would conduct operations at Wolf Bay in a similar professional and environmentally conscientious manner.

Since we have occupied our home, we have enjoyed watching the North Idaho Maritime team go about their routine activities. Our interactions with North Idaho Maritime employees have shown them to be courteous, professional and cooperative with a desire to maintain good community relations and extending every effort to minimize any negative impact their activities may impose.

North Idaho Maritime has demonstrated their concern for nearby residents by keeping their property clean and through their efforts improved the safety and appearance of their location.

In summary we consider North Idaho Maritime to be good neighbors and excellent stewards of the environment who conduct their operations in a professional manner with an eye to minimize any disruption to their neighbors.
