Comment:

I am opposed to the John Condon, North Idaho Marine application, Case-no-ph-2020-pub-22-002.

I am opposed on 2 fronts.

First, Hwy 97 is a scenic byway and having this commercial business right when you begin on the highway will detract from that designation. It would be impossible to hide that type of business on that little spit of land in Wolf Lodge Bay. It would also increase traffic on an already congested road and how they would operate between those blind curves on each side of their location without negatively impacting traffic flow is impossible to visualize.

Secondly, this bay is a spawning ground for Kokanee and Chinook salmon and a commercial development will negatively impact that. Also, CDA is know nationwide for the eagles that come to feed at that spawning ground each winter attracting nature lovers from all over. This would also be negatively impacted.

Please consider denying this application.'

Thankyou
