Subject: CONDON REQUEST FOR LAKE COEUR D ALENE
Date: Wednesday, July 22, 2020 09:24:17 PM

Coeur d'Alene's economic system is driven by our lake. It is what makes us WELL KNOWN... our lake is not nearly as clean as it was years ago but someone has dropped the ball regarding neutralizing the lake and her health. We're still reeling from the effects of the mining industry from the Silver Valley. WE KNOW BETTER NOW!!!! Adding a COMMERCIAL venture to the mix would absolutely destroy the lake without any dream of keeping it safe for swimmers, boaters, and other recreationalists who COME TO COEUR D'ALENE to ENJOY the lake and all the beautiful outdoor resources that surrounds the lake. Tourist would eventually find a new place. Pollution is a big problem and letting a commercial business come in at any end of the lake would push pollutants throughout the lake as river and tributaries come in and moves the leftover pollutants at the bottom of the lake around. This is NOT something that will benefit the people of North Idaho...it will only benefit Mr. Condon. I say no. It is TOOO precious to mess up. Way to precious.
