Subject: Wolf Lodge Bay
Date: Thursday, July 23, 2020 12:47:55 AM

I and/or family members have been residents on Lake Coeur d Alene since 1953. It's unbelievable how much the topography has changed and the amount of development that has been done. It is time to start planning ahead to retain any of the special places on the lake that remain. Wolf lodge Bay is one of these places. It is prized for fishing and Kokanee spawning, kayaking and boating, not to mention a destination for eagles each winter.

In addition to its serenity and beauty, it is fairly shallow. Any commercial development is, by its very nature, going to stir up the toxic metals on the bottom of the lake and increase our chances of becoming a superfund site. The noise alone could harm the spawning and appearance of eagles, not to mention putting a damper on everyone's enjoyment. What about the narrow highway 95. There is no room for trucks which will be a hazard to regular and tourist traffic. Please do not allow this to be built in one of the few remaining unspoiled areas on OUR lake! It is your responsibility to protect it. Mary Whitesel Reber
