To whine it may concern,

Hello my name is Patrick Huggins Jr, and I am a current Kootenai county resident. I am writing to oppose the commercial development proposal on Wolf Lodge Bay. I find it disturbing that we are even having this discussion based solely on the fact that this is a natural habitat of the bald eagle in this area. This could potentially ruin this habitat, and force the bald eagle population to migrate elsewhere. What a huge loss that would be to our community! Is the chance worth it?? I think not!!

Thank you!
