As a 44 year resident of CDA I want my voice taken into consideration on the commercial development being considered in Wolf Lodge Bay. I cite the negative environmental impact studies as well as the negative aesthetics that will impact the area. The lake is our greatest treasure and commercialization in this particular area is an insult. I implore the IDL to deny a commercial request in this bay. There are other places on the lake that it wii not have as negative an impact as this one would.
