IDAHO DEPARTMENT OF LANDS

STANDARD INFORMATION

ADDENDA

It will be the respondent's responsibility to check for any addenda prior to submitting a bid. In the event it becomes necessary to revise any part of the solicitation documents, addenda will be made available. Information given to a respondent will be available to all other respondents if such information is necessary for purposes of submitting a or if failure to give such information would be prejudicial to uninformed respondents.

BURDEN OF PROOF

ANY VARIATIONS of brand names or deviations from the specifications MUST BE CLEARLY STATED. It shall be the responsibility and burden of the submitting vendor to furnish the State WITH ITS ORIGINAL SUBMISSION sufficient data to determine if the goods or services offered conform to the specifications.

ORAL INFORMATION

The State will not be responsible for any verbal or oral information regarding a bid.

DISQUALIFICATION AND AWARD INFORMATION

The state reserves the right to make reasonable inquiry to determine the responsibility of a contractor. Such requests may include but not be limited to financial statements, credit ratings, statements of experience and past performance, references, etc. Successful contractors must show to the satisfaction of the Idaho Department of Lands that they have sufficient equipment and work crews to complete the work contracted by the time specified. The unreasonable failure of a contractor to promptly supply information in connection with such a request is reason for disqualification. Except as otherwise provided by law, information furnished by the contractor pursuant to this provision may not be disclosed outside the Idaho Department of Lands without prior written consent of the Contractor. Disqualification of a high-ranking contractor may be pursued when their reputation, experience or references are such as to create a doubt about satisfactory job completion or if the bids are considerably below Department estimates and the other bids. The purchasing agent will contact the contractor and request that they disqualify themselves by withdrawing in writing. If the contractor refuses to withdraw, the purchasing agent may notify the contractor in writing or email that the Department will not offer the contractor a contract and proceed with an award to the next responsible contractor.

PARTNERSHIPS

Contractors responding as partners must furnish the Idaho Department of Lands the name of the partnership, names of the partners, and the partnership's federal taxpayer ID number. All payments will be made to the partnership.

INTERNAL REVENUE SERVICES REPORTING REQUIREMENT

IRS rules and regulations require employers to submit a miscellaneous income form (IRS form 1099) for all contractual persons who receive \$600 or more in a calendar year. Incorporated firms are exempt from this reporting requirement. The contractor's taxpayer identification number (Social Security or employer number) must be listed on the signature page of the contract.

PUBLIC RECORDS

The Idaho Public Records Law, Idaho Code Sections 74-101 through 74-126, allows the open inspection and copying of public records. Public records include any writing containing information relating to the conduct or administration of the public's business prepared, owned, used, or retained by a state or local agency regardless of the physical form or character. ALL, OR MOST (there are exceptions), OF THE INFORMATION CONTAINED IN YOUR RESPONSE TO THE STATE'S SOLICITATION WILL BE A PUBLIC RECORD SUBJECT TO DISCLOSURE UNDER THE PUBLIC RECORDS LAW.

WORKERS COMPENSATION INSURANCE

All persons working for the State under any contract of hire, expressed or implied, must be covered by worker's compensation insurance. (Reference Title 72, Idaho Code). Contact the Idaho Industrial Commission with any Worker's Compensation questions.

Any contractor who hires employees to accomplish the contracted work must provide a certificate of worker's compensation insurance.

PREFERENCES

Section 67-2349, Idaho Code, requires application of a preference in determining which contractor submitted the lowest responsible bid. If the contractor who submitted the lowest bid is domiciled in a state which has a preference law that penalizes Idaho domiciled contractors, then the State must apply a preference. The penalty applied to out-of-state contractors competing against Idaho contractors is determined by the penalty applied by the contractor's domiciliary state to its out-of-state contractors.

In determining domicile, the following "rule of thumb" will be used: Corporations – the state in which the corporation is chartered or incorporated; Sole proprietor or partnership – the state in which the permanent headquarters of the business is located.

A contractor domiciled outside the boundaries of the state of Idaho may be considered as an Idaho domiciled contractor provided that there exists for a period of one year preceding the date of the bid a significant Idaho economic presence as defined herein. A significant Idaho economic presence shall consist of the following: (a) That the contractor maintains in Idaho fully staffed offices, or fully staffed sales offices or divisions, or fully staffed sales outlets, or manufacturing facilities, or warehouses or other necessary related property; and (b) if a corporation, that it be registered and licensed to do business in the state of Idaho with the Office of the Secretary of State.

REJECTION OF BIDS AND CANCELLATION OF BID SOLICITATION

Prior to the issuance of a contract, the State shall have the right to accept or reject all or any part of a bid when: (i) it is in the best interests of the State of Idaho; (ii) the bid does not meet the minimum bid specifications; (iii) the bid is not the lowest responsible bid; (iv) a finding is made based upon available evidence that a respondent is not responsible or is otherwise incapable of meeting specifications or providing an assurance of ability to

fulfill contract requirements; or (v) the item offered deviates to a major degree from the specifications, as determined by the State (minor deviations, as determined by the State, may be accepted as substantially meeting the bid requirements of the State of Idaho). Deviations will be considered major when such deviations appear to frustrate the competitive solicitation process or provide a respondent an unfair advantage. Prior to the issuance of a contract, the State shall have the right to reject all bids or to cancel a solicitation or invitation to bid. Cancellation may be for reasons that include but are not limited to: (i) inadequate or ambiguous specifications; (ii) specifications have been revised; (iii) property is no longer required; (iv) there is a change in requirements; (v) all bids are deemed unreasonable or sufficient funds are not available; (vi) bids were not independently arrived at or were submitted in bad faith; (vii) it is determined that all requirements of the solicitation process were not met; (viii) insufficient competition; or (ix) it is in the best interests of the state of Idaho. Pursuant to IDL Procurement Policy No. 13, the right is reserved to engage in negotiations.

AWARD PROCEDURES

For contracts with a total value of \$100,000 or less, the State will email all respondents within five (5) business days following the solicitation closure of its intent to award a contract(s) and the party(ies) to whom the contract(s) will be awarded and will then email a contract award to the successful respondent(s).

For contracts with a total value of more than \$100,000, the State will notify all respondents within five (5) business days following the solicitation closure, by mail and/or email, of its intent to award a contract and the party(ies) to whom the contract will be awarded. After elapse of the five (5) day appeal period, if no appeals are received, the State will award a contract to the successful respondent(s).

Respondents to whom a contract has been awarded will have fourteen (14) calendar days from the mailing date of the award notice to return to the State a signed copy of the contract along with the required certificates of insurance. If the State does not receive such documents within the specified time period, the State may declare, at its sole discretion, that all respondent's rights to the contract are forfeited, and the State may proceed without further delay or notice to award the contract to the next low respondent.

SPECIAL PROVISIONS GENERAL ROAD MAINTENANCE

Unless stated otherwise, all work performed shall conform to that commonly used in the forestry profession, the IDL Forest Management Manual, and as directed by the IDL.

1. ADDITIONAL DEFINITIONS AND TERMS:

a. <u>Request for Service</u>: A written description of additional work required under this contract not described in the project description or work supplement. The FIC will initiate the request and agree to in writing by the Contractor. The request will list the work required and estimate of supplies and materials need to complete the project. The Contractor and FIC will sign the request prior to starting work. Payment for work completed under a request for service will be made at the rate(s) set forth in Schedule A attached hereto. Additional equipment required and not listed on the Schedule A attachment will be hired at negotiated hourly rates not to exceed the Area's cooperative rates.

2. ITEMS TO BE FURNISHED BY THE CONTRACTOR:

- a. The Contractor will provide all equipment, pertinent materials, labor including staff supervision, fuel, and incidentals necessary to complete all provisions of this contract except as may be noted elsewhere in this contract or by the COR. The Contractor will furnish an address and telephone number where the FIC can reach the Contractor within a twenty-four (24) hour period and reply to the FIC within that twenty-four (24) hour period.
- b. The Contractor may purchase needed miscellaneous supplies (culverts, grass seed, fertilizer, straw bales, etc.) once authorized by the FIC in writing. Contractor will submit proof of purchase (original receipt) with billing as State will reimburse for actual costs.
- c. The Contractor will be required to maintain a daily log showing all labor and equipment usage (miles and hours). The daily log will also include a list of all supplies used on the project. The Contractor will provide the log to the State upon request.
- d. Other items as per the attached project description(s) or FIC.

3. ITEMS TO BE FURNISHED BY THE STATE:

- a. The State shall furnish a FIC who will be qualified to explain the objectives and expectations of the project, answer questions, provide clarification, and to conduct periodic field inspections. FIC shall be the primary IDL contact with the Contractor and shall act as the representative of IDL in all contract matters.
- b. The State will supply materials and supplies required to complete the projects unless otherwise designated. Examples of supplies that will be provided include steel culverts and associated hardware, rip rap and surfacing rock, and appropriate filter fabric as required. The state will also provide copies of State Administrative maps and project maps of specific project areas.

4. CONTRACT ADMINISTRATION:

- a. The FIC will administer the contract as required in all specifications.
- b. Disputes between the FIC and the Contractor will be resolved by the State.
- c. The FIC has the following authority in addition to that delegated in other portions of the contract:
 - 1) Decide questions of fact arising in regard to quality and acceptability of equipment to be used, materials furnished, and all work performed.
 - 2) Make recommendations for payment.

5. GENERAL ROAD STANDARDS:

Unless stated otherwise, all procedures and standards shall conform to those commonly used in the forest road building/construction/reconstruction profession, policies and procedures of the IDL, the Idaho Forest Practices Act (FPA), and as directed by the State.

The following general road standards will be followed unless otherwise designated by the FIC or in the project description. Roads should be maintained to the standards that they were constructed unless upgrading of the road is required.

- a. Cut / fill and Running Surface:
 - 1) Running surface width will be maintained to the original width. Usually 12 to 18 feet depending on the type of road.
 - 2) Cut slopes will be 1:1.
 - 3) Fill slopes will be 1 1/2:1.
 - 4) Running surface will be outsloped or insloped depending on the existing road design. The Contractor may also be required to change the slope of the running surface as designated by the FIC.
 - 5) All running surface material shall remain on the crown of the road and not be side cast.
- b. Culverts not replaced shall be free flowing with inlet and outlet clear of debris.
- c. Drainage Structures:
 - 1) Drainage structures will be maintained or built into the road as needed and explained in the project description or per FIC.
 - 2) Cross drainage structures installed in roads shall slope diagonally out and down grade at an adequate angle to divert water from the road. Each ditch shall be cut into the roadbed, tied to the cut bank, sloped to the shoulders, open at the lower end, and capable of diverting water flow completely off the road at that point.
 - 3) Drainage structure spacing shall be approximately as follows: 0-4% (road grade), 150 feet; 5-10%, 100 feet; 11% and greater, 50 feet; or as designated by the FIC.
 - 4) Drainage structures in roads shall be located within 30 feet uphill of all stream crossings and/or fills except where diverted water will erode fill slopes or at locations designated by the FIC.

6. GRADING:

Roads will be graded at locations designated by the State by a request for service or as described in the project description.

- a. Work will include, grading the road surface, the berm on the outside edge shall be pulled in and incorporated into the running surface unless directed otherwise by the FIC.
- b. Inside ditches shall be opened and material shall be incorporated into road surface or disposed of as directed by the FIC.
- c. Culvert inlets opened and catch basin cleaned.
- d. Rolling dips and sediment traps maintained as directed by the FIC.
- e. Roads will be watered in conjunction with grading when needed.

f. Culverts damaged by grading operations will be repaired or replaced at the Contractor's expense.

7. CULVERT INSTALLATION:

Culverts will be installed at locations designated by the State. Culverts will be 16 gauge, 2 2/3" x 1/2" corrugation with 12" bands or as directed by the FIC. Culverts maybe purchased by the Contractor or provided by the State as stated in the Project Description or FIC. Proof of purchase (receipt) will be required with Contractors billing. All culvert installations shall comply with the following specifications unless otherwise directed by the FIC:

- a. All culvert installation will comply with IDAPA 37, Title 03, Chapter 07, Stream Channel Alteration Rules.
- b. All culverts shall be bedded in an earth foundation of uniform density that has been shaped to the desired camber and to conform to the shape of the pipe for at least ten percent of its diameter. The bedding shall afford a uniform, firm and true bed, free from projecting stones, roots, or other irregularities for a depth under the culvert of not less than one-half inch per foot height of fill over the pipe with a minimum allowable thickness of four inches.
- c. All culverts shall be so laid that the distance from the finished road surface to the top of the pipe shall not be less than 12 inches.
- d. All culverts shall be laid with separate sections joined firmly together and shall coincide closely with the existing stream channel, both in gradient and in alignment. Catch basins and riprap are required at the upper end. Splash basins with riprap are required at the lower end in cases where water will erode the fill.
- e. Any culvert which is not of true alignment, shows any undue settlement after being laid, is damaged, or is not functioning properly, shall be taken up and re-laid or replaced by the Contractor at the Contractor's expense.
- f. All culvert installation shall be done during periods of low water.
- g. Riprapping and armoring shall be completed at the time of culvert installation wherever there is potential for erosion.

8. CULVERT REMOVAL:

Culverts will be removed at locations designated by the FIC, project description, or in a request for service in a manner directed by the FIC.

- a. Trench walls shall be reshaped to a $1\frac{1}{2}$:1 (horizontal to vertical) ratio and trench shall encompass bank full width of existing stream.
- b. The State requires the Contractor to remove from State site any culverts that have been designated for removal and dispose of them at a FIC approved salvage yard or appropriate location as designated by the FIC as in the case of reusable culverts.

9. ROAD ABANDONMENT:

Roads designated for abandonment work will require the following per the project description, the request for service, or FIC:

- a. Install drainage structures as explained in the project description or per FIC.
- b. Remove and dispose of culverts as designated by the FIC, reshaping disturbed areas to slopes of approximately but not steeper than 1½:1 ratio (horizontal to vertical).

10. ROAD BRUSHING AND CLEARING:

following:

- a. Clear road surface of all debris as needed and cut and remove all stems which protrude or lean into the road right-of-way.
- b. Brush cut and fill slopes by removing all stems two feet in height and greater. Distance up the cut slope and down the fill slope is designated in the project description or the request for service. If not designated, clearing distances will be required that allow for safe vehicle travel and be a minimum of 10 feet from the edge of the road surface.

11. INSPECTIONS AND PAYMENT:

- a. Inspection reports will be furnished to the Contractor by the FIC so that any deficiencies may be corrected as contract work progresses.
- Upon satisfactory completion of specific project work agreed upon under a request for service or as
 described in the project description or project supplement, the Contractor will submit a detailed invoice to
 the IDL for payment.
- c. If work on a specific project or part thereof fails to meet contract specifications, payment will be withheld on the unsatisfactory portion. The Contractor shall, at no additional expense to the State, re-work unsatisfactory areas or parts thereof. In the event the contract is terminated for unsatisfactory performance, payment will be made as set forth in this contract for work satisfactorily completed.

Payment schedules are specified in the attached project description(s) or agreed upon in the request for service. All payments even for work agreed upon in a request for service will be made at the rate(s) set forth in Schedule A attached hereto.
