Dear Applicant City:

Recertification as a Tree City USA can be easily applied for directly on-line through the Arbor Day Foundation's automated application system at: <http://www.arborday.org/programs/treeCityUSA/index.cfm>. (Your city should have already received a user name and password and a how-to-instruction guide directly from the Arbor Day Foundation. If you do not have yours, please contact me.) Note that on-line applications do not need to be completed all at once. You can complete parts of it, then come back later as you gather the needed information. Note that you will need to use either MS Explorer or Google Chrome browsers (Firefox is not compatible).

We encourage you to use the on-line application process; this makes review and approval much easier and faster for us and for the Arbor Day Foundation. However, you can still complete and mail the paper version if needed. Following this page is the **Tree City USA Recertification Application** and worksheets for Idaho—with step-by-step instructions for completing them. Please complete the **on-line application**, or submit the completed/signed **Tree City USA Recertification application** and **completed worksheets** from the IDL website to the appropriate person for your area shown at the top of this page.

One of the great strengths of the **TREE CITY USA** program is that it encourages and recognizes long-term commitment to community forestry. Annual recertification provides an opportunity for each **TREE CITY USA** to review its program and to tell the National Arbor Day Foundation and us just how well your city is doing. Please complete your application (on-line or by mail) as early as possible, but no later than **December 15, 2016**. This will allow us time to review applications and ensure your city receives award materials in time for your Arbor Day celebration. When preparing your application, remember to include information for each of the four standards, as listed on the Tree City Application for Recertification.

As a recertifying Tree City USA, you may also be eligible to apply for the **Tree City USA Growth Award**. Only recertifying Tree City USA's may apply. Submit your completed **Growth Award Application** with your application for recertification. The Tree City Growth Award application can also be completed on-line. If you do not qualify to apply for a Growth Award this year, you may want to consider it when planning next year's program.

If you have any questions, please do not hesitate to contact the representative for your area as listed above. Thank you for cooperating with the requested December 15th deadline.

Sincerely,

Dave Stephenson
 Community Forestry Coordinator

FOR APPLICATION OR RECERTIFICATION

STANDARDS #1 & 2 WORKSHEET

STANDARD #1 ~ TREE BOARD OR DEPARTMENT

A Tree Board (Committee or Commission) is the group of citizens charged by ordinance to develop and administer a tree management program, for trees on public property, in their community. Instead of having such a Board, some communities have a department, such as a City Forestry Department that fulfills this role.

For Standard #1 please indicate (here or on application):

If Tree Board is responsible for program:

Date Tree Board was established (if first-time applicant): _____

Names of 2016 Tree Board Members:

_____	_____
_____	_____
_____	_____
_____	_____
_____	_____

Dates the Board has met in 2016:

_____	_____
_____	_____
_____	_____

If Department is responsible for program:

Date Department was established (if first-time applicant) _____

Name of Department: _____

Name & Title of person holding position in 2016: _____

STANDARD #2 ~ A COMMUNITY TREE ORDINANCE

Communities are required to have passed a **Tree Ordinance** and to submit a copy of that ordinance with the TCUSA application. First-time applicants should also indicate the date the ordinance was established. Those applying for recertification DO NOT need to attach an ordinance unless it has changed. Note—if you complete your recertification application on-line, please scan and upload your most current tree ordinance as per the instructions. Thank you!

For Standard #2 please check appropriate boxes on application and attach copy of ordinance, if required

FOR APPLICATION OR RECERTIFICATION

STANDARD #3 WORKSHEET

STANDARD #3~ A Community Forestry Program with an Annual Budget of at Least \$2 Per Capita

This standard requires the community show they have a community forestry program that expends at least \$2 per capita. To do so, communities must attach their program's 2016 work plan, accomplishment report, and detailed budget that documents fulfillment of the budget requirements.

A list of qualifying expenditures and a list of value standards for volunteers can be found on page 8.

For Standard #3 please indicate (on application):

- 1. **Total Community Forestry Expenditures** _____
- 2. **Community Population** _____

Tree City USA Standard #3 Financial Worksheet

Community: _____ Year: _____

To calculate your community tree program expenditures, complete the financial worksheet below. All cash and in-kind expenditures for public tree care may be included.

1. Tree Planting and Initial Care

Include cost of tree purchases, labor (salaries, benefits & volunteer time), equipment for planting, planting materials, stakes, wrapping, watering, mulching, and competition control, etc.

\$ _____

2. Community Forest Management

Include pruning, public education, professional training, memberships, salaries/benefits, volunteer time, street and park tree inventory, pest management, fertilization, watering, etc.

\$ _____

3. Tree Removals

Include cost of saws and equipment, supplies, and labor (salaries/benefits and volunteer time.

\$ _____

4. Volunteer Time

(Cont'd)**

Tree City USA Standard #3 Annual Work Plan 2016

An annual work plan outlining the community forestry work that was to be carried out during the year 2016 needs to be provided. The worksheet below contains a column for every month (January—December); within each column there are four dots which represent each of the weeks within the month. Consider using a copy of this form to plan next year’s activities.

For each activity, place an “x” on top of the dots for each week of the year your community planned to be involved in that activity (each dot represents one week)

EXAMPLE

		Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sept	Oct	Nov	Dec
I. Annual planning & review session													
a.	Prioritize work to be done	xxxx	x. x.	xxxx
b.	Organize activities, people, dates	x.	x.	xx..	x.	x.	x x..

Please complete the worksheet below (or provide the information in a different format) and include it with your application for Standard #3.

Community: _____ **Year:** _____

FOR GROWTH AWARD APPLICATION

INSTRUCTIONS

The **Tree City Growth Award** recognizes Tree City communities that have made a significant improvement in their tree care efforts. To be eligible, communities must have been a Tree City the previous year **AND** must have spent at least as much this year on their tree care program as last year¹. In order to qualify for the Growth Award, communities must have completed activities listed in the Growth Award application which total 10 or more points.

Growth Awards are not intended to be achieved every year, but rather mark years when special projects or efforts have raised the level of tree care in the community. Please note that most activities are only eligible the first year they are implemented, unless they are significantly improved. For example, if your community started a continuing education program for staff (activity A8) in one year and used that activity to receive a Growth Award, you cannot use it again for a Growth Award in a subsequent year unless the program was significantly improved.

Please fill in all the information requested on the Growth Award application.

1. Use the amount shown on your previous year's Tree City application (under Standard #3) for the amount spent on your forestry program last year (2015).
2. For each activity that will earn points toward a Growth Award:
 - List the activity number
 - Name of the activity
 - Number of points earned
3. Attach separate sheets to document and describe each activity as appropriate. You must supply a good explanation of the activity. Some examples are shown below.
4. Mail the completed Growth Award application and accompanying documentation to your Community Forestry Assistant by **December 15th** (see page 1 and 9 for mailing information).

Examples of good activity descriptions

B1 New Project or Organization—The City and area public schools have started a joint nursery project. The purpose of this project is to give students experience in the growing and caring of nursery stock. It is the feeling of the partners that when stock is ready for transplanting the school system or city will have the necessary sites where the stock can be used.

The educational portion of this venture will provide the students experience in the care and growing of the tree stock. This will also provide students with business experience when they sell their planting stock.

At present, the schools system will have the site on their property. The city will supply the compost for the beds and much of the mulch in the future.

The present site is 1 ½ acres with room for expansion. The spring of 1996 will see the first seedlings being installed. With this in place, it can only grow into a very worthwhile project. As the nursery develops, trees will be offered for sale to residents. Labor and supervision will be supplied by students and teachers of the school district.

B7 Engineering/Forestry Coordination—In 1995, the city adopted a sidewalk installation policy for the entire city. Previously, the city had no firm policy. Most subdivisions and commercial buildings developed in the last 25 years do not have sidewalks on their property. The city hired a consultant to determine which areas of the city most needed sidewalks. This year, the city began using the new plan and started installing sidewalks on both sides of the street.

Needless to say that after 25 years of being in place without sidewalks, neighborhoods and businesses expressed a lot of concern regarding the installation of the sidewalks. One of the many problems with installing the sidewalks were trees. The engineering technician and the city forester worked together in determining sidewalk locations to minimize impact on terrace and private property trees. A copy of the new sidewalk policy is enclosed.

Also starting in August of 1995, the city started planning for major improvements to be done to 3 streets [listed]. The city hired a consulting firm to do the engineering for the roadway improvements. The construction for the projects is scheduled for 1997 and 1998. It has been very important that the city forester has been included in the planning of these projects since the very beginning.

Enclosures: Notice of first public informational meeting, map of project locations and road improvement detail, public comment form, minutes of meeting, list of attendees, sidewalk repair policy with tree policies highlighted.

¹Note— if community expenditures for this year's tree program are less than last year, but it was because of special projects or emergency situations, your community can still be eligible for a Growth Award. Provide an explanation for the reason spending is less this year than last.
