Records Request Description: For the Land Board - Reinvestment Subcommittee: Please reinvest the approximately \$150 million in an endowment investment fund/mutual fund instead of buying more land across Idaho. There is enough land that has been taken off the property tax rolls by the Federal and State governments already. Additional land bought by the government increases the financial burden upon the local County people to provide the necessary services that Counties must. Thank you for your consideration. Sincerely, Mark Frei Idaho County Commissioner
