Dear Darrell Early:

I am writing to ask you to oppose the state purchasing more land and reducing the amount of private property in Idaho.

I strongly disagree with the purchasing of more public lands. We as tax payers want better schools and jails not a smaller tax base!! The money appropriated for this subcommittee are sacred tax dollars and should be put to work for us in our local communities not by buying land! Please realize your roll as public servants to this great state and her needs not the needs or influences of outside voices!

Subject: Please stop buying more state lands

Dear Darrell Early:

I am writing to ask you to oppose the state purchasing more land and reducing the amount of private property in Idaho.

Idaho already has vast amount federal and state lands. The state of Idaho shouldn't be in the business of competing with the private sector. In Idaho farm ground is approaching prices that are unsustainable and if the state starts buying agriculture ground it will drive up prices for those of us that make our living in Ag. Please STOP purchasing additional ground.

Subject: Please do NOT buy more land

Dear Darrell Early:

I am writing to ask you to oppose the state purchasing more land and reducing the amount of private property in Idaho.

My husband and I are first generation, young ranchers and our biggest road block to growing is having land for our cattle. It is very difficult to purchase ground because there isn't much private ground already and what private ground there is is being developed left and right. If the State were to buy more ground they would limit what animals can be ran on the land or even prevent ranchers from running the ground so it makes it even harder for us to find ground.

Subject: No More Land Grabs

Dear Darrell Early:

I am writing to ask you to oppose the state purchasing more land and reducing the amount of private property in Idaho.

The RIGHT to Life, Liberty, and the Pursuit of Happiness is a central theme in the Declaration of Independence. Yet in the 243 years since that inspired document came into being, our state and federal governments have increasingly threatened citizens' inalienable right to such freedoms. This latest effort to purchase additional land in Idaho is yet another example. The State of Idaho does not pay property taxes, which gives the State an unfair advantage over private companies who would also like to purchase the same land. And removing purchased land from the tax rolls shifts the tax burden to the remaining landowners in that county. Idaho is already 70% publicly owned between state and federally managed lands. Her citizens have rights that should be respected. To this end, I am writing to urge the Idaho Land Board to please discontinue the reinvestment policy that allows for purchase of private timber and agricultural land. As life-long Idaho residents, we do not support this policy. Thank you.

Subject: opposition to policy

Dear Darrell Early:

I am writing to ask you to oppose the state purchasing more land and reducing the amount of private property in Idaho.

ILBRS, the reinvestment policy, which allows for the purchase of private timber and agriculture land, should be discontinued. The state does not pay property tax's, the state can afford to pay higher prices, giving them an unfair advantage over private timber companies who would like to purchase the same timberland. If Idaho believes it must purchase more land, it should only consider doing so from the federal government.

Dear Darrell Early:

I am writing to ask you to oppose the state purchasing more land and reducing the amount of private property in Idaho.

Idaho is mostly stat or federally owned. Let the citizens of the state own the land and pay the taxes. Living in Idaho County, I know first hand how it is with very little of the county privately owned. Everyone in the county is hurt. The state and federal should not own any land. They can rent from the counties.

Subject: Idaho Land Board Reinvestment Subcommittee - Reinvestment Policy

Dear Darrell Early:

I am writing to ask you to oppose the state purchasing more land and reducing the amount of private property in Idaho.

I am writing to ask you to oppose the state purchasing more land and reducing the amount of private property in Idaho. I believe that timber and agricultural property in Idaho is better managed when it's owned by a private entity and not by state or federal agencies. As you are aware, when land is owned by a government agency, the land is then deemed tax exempt. This lowers the tax base for Idaho, and puts additional pressure on individuals to make up the difference. Financially, this hurts Idahoans. We need additional sources of tax revenue to help lower the tax burden. When this happens, households will have more disposable income to put back into Idaho's economy and it will flourish. The governor has done a great job in reducing the amount of regulations in Idaho. Lets continue this trend by decreasing the amount of land owned by the state and federal agencies which is currently at 70%. When this happens, the Idaho resident will win both financially and economically. Thank you

Subject: Land Board Re-investment of private property

Dear Darrell Early:

I am writing to ask you to oppose the state purchasing more land and reducing the amount of private property in Idaho.

This is a time when it is extremely difficult for those of us who make our living off of our lands, whether it be farming, ranching, logging, or mining. The last thing we need is for our government, or any other entity, to unfairly compete against us not only for the purchase of these lands but also for the market share that the harvested resources will go into. And there is the fact of taking it off of the tax rolls and increasing my property taxes to offset the reduction to my county. You say you are pro business, now you have the opportunity to prove it. Please just say no on this issue. Thank you.

Dear Darrell Early:

I am writing to ask you to oppose the state purchasing more land and reducing the amount of private property in Idaho.

Between the Federal & State Governments they own over 70% of the land here in Idaho. Property taxes would be more equitable if 70% was owned privately and public lands were 30%. That would be a huge financial burden lifted off the backs of our citizens.

Subject: Opposed to the Current Land Board Reinvestment Policy

Dear Darrell Early:

I am writing to ask you to oppose the state purchasing more land and reducing the amount of private property in Idaho.

I am completely opposed to the land board policy which allows for the purchase of "privately owned timber and agriculture land". Private property owners are constantly being subjected to higher taxation for public infrastructure and programs and removing "any" private property from the tax base will subject remaining private property owners to higher taxation. Government entities "should never" be allowed a position of competing against private enterprise. And likewise, privately owned enterprises should never be subjected to the position of paying taxes to the government to compete against them as business owners. I do support the Land Board buying any Federally owned ground in the State.

Dear Darrell Early:

I am writing to ask you to oppose the state purchasing more land and reducing the amount of private property in Idaho.

Idaho is the fourth highest in the United States in public lands at over 70%. By purchasing more lands you are reducing the amount of private land on the tax roles which can greatly effect the tax payers especially in rural counties. Also, using state endowment funds to do this is a bad practice as you are cutting the return on investment by nearly half. We need to move toward selling state owned lands to private ownership. Again, I want you to know that I firmly appose the practice of purchasing private lands. Thanks, Doug Barrie
