IDAPA 20 – IDAHO DEPARTMENT OF LANDS
Docket No. 20-0000-1900F
20.03.01 – RULES GOVERNING DREDGE AND PLACER MINING
OPERATIONS IN IDAHO

Dustin Miller,

I hope that an email is allowed for comment. Recreational placer mining should continue to be allowed. I know that other interests submits that recreational mining is akin to recreational fishing. I like to eat my recreational fish, and have done so all my life.

The People's property is being eroded from The People access and use.

You have the power to stop it
