IDAHO DEPARTMENT OF LANDS

STANDARD INFORMATION

ADDENDA

It will be the respondent’s responsibility to check for any addenda prior to submitting a bid. In the event it becomes necessary to revise any part of the solicitation documents, addenda will be made available. Information given to a respondent will be available to all other respondents if such information is necessary for purposes of submitting a bid or if failure to give such information would be prejudicial to uninformed respondents.

BURDEN OF PROOF

ANY VARIATIONS of brand names or deviations from the specifications MUST BE CLEARLY STATED. It shall be the responsibility and burden of the submitting vendor to furnish the State WITH ITS ORIGINAL SUBMISSION, sufficient data to determine if the goods or services offered conform to the specifications.

VERBAL INFORMATION

The State will not be responsible for any verbal information regarding a bid.

DISQUALIFICATION AND AWARD INFORMATION

The state reserves the right to make reasonable inquiry to determine the responsibility of a contractor. Such requests may include but not be limited to financial statements, credit ratings, statements of experience and past performance, references, etc. Successful contractors must show to the satisfaction of the Idaho Department of Lands that they have sufficient equipment and work crews to complete the work contracted by the time specified. The unreasonable failure of a contractor to promptly supply information in connection with such a request is reason for disqualification. Except as otherwise provided by law, information furnished by the contractor pursuant to this provision may not be disclosed outside the Idaho Department of Lands without prior written consent of the Contractor. Disqualification of a high-ranking contractor may be pursued when their reputation, experience or references are such as to create a doubt about satisfactory job completion or if the bids are considerably below Department estimates and the other bids. The purchasing agent will contact the contractor and request that they disqualify themselves by withdrawing in writing. If the contractor refuses to withdraw, the purchasing agent may notify the contractor in writing or email that the Department will not offer the contractor a contract and proceed with an award to the next responsible contractor.

PARTNERSHIPS

Contractors responding as partners must furnish the Idaho Department of Lands the name of the partnership, names of the partners, and the partnership’s federal taxpayer ID number. All payments will be made to the partnership.
INTERNAL REVENUE SERVICES REPORTING REQUIREMENT

IRS rules and regulations require employers to submit a miscellaneous income form (IRS form 1099) for all contractual persons who receive $600 or more in a calendar year. Incorporated firms are exempt from this reporting requirement. The contractor's taxpayer identification number (Social Security or employer number) must be listed on the signature page of the contract.

PUBLIC RECORDS

The Idaho Public Records Law, Idaho Code Sections 74-101 through 74-126, allows the open inspection and copying of public records. Public records include any writing containing information relating to the conduct or administration of the public's business prepared, owned, used, or retained by a state or local agency regardless of the physical form or character. ALL, OR MOST (there are exceptions), OF THE INFORMATION CONTAINED IN YOUR RESPONSE TO THE STATE'S SOLICITATION WILL BE A PUBLIC RECORD SUBJECT TO DISCLOSURE UNDER THE PUBLIC RECORDS LAW.

WORKERS COMPENSATION INSURANCE

All persons working for the State under any contract of hire, expressed or implied, must be covered by worker’s compensation insurance. (Reference Title 72, Idaho Code). Contact the Idaho Industrial Commission with any Worker’s Compensation questions.

Any contractor who hires employees to accomplish the contracted work must provide a certificate of worker’s compensation insurance.

PREFERENCES

Section 67-2349, Idaho Code, requires application of a preference in determining which contractor submitted the lowest responsible bid. If the contractor who submitted the lowest bid is domiciled in a state which has a preference law that penalizes Idaho domiciled contractors, then the State must apply a preference. The penalty applied to out-of-state contractors competing against Idaho contractors is determined by the penalty applied by the contractor’s domiciliary state to its out-of-state contractors.

In determining domicile, the following “rule of thumb” will be used: Corporations – the state in which the corporation is chartered or incorporated; Sole proprietor or partnership – the state in which the permanent headquarters of the business is located.

A contractor domiciled outside the boundaries of the state of Idaho may be considered as an Idaho domiciled contractor provided that there exists for a period of one year preceding the date of the bid a significant Idaho economic presence as defined herein. A significant Idaho economic presence shall consist of the following: (a) That the contractor maintains in Idaho fully staffed offices, or fully staffed sales offices or divisions, or fully staffed sales outlets, or manufacturing facilities, or warehouses or other necessary related property; and (b) if a corporation, that it be registered and licensed to do business in the state of Idaho with the Office of the Secretary of State.

REJECTION OF BIDS AND CANCELLATION OF BID SOLICITATION

Prior to the issuance of a contract, the State shall have the right to accept or reject all or any part of a bid when: (i) it is in the best interests of the State of Idaho; (ii) the bid does not meet the minimum bid specifications; (iii) the bid is not the lowest responsible bid; (iv)
a finding is made based upon available evidence that a respondent is not responsible or is otherwise incapable of meeting specifications or providing an assurance of ability to fulfill contract requirements; or (v) the item offered deviates to a major degree from the specifications, as determined by the State (minor deviations, as determined by the State, may be accepted as substantially meeting the bid requirements of the State of Idaho). Deviations will be considered major when such deviations appear to frustrate the competitive solicitation process or provide a respondent an unfair advantage. Prior to the issuance of a contract, the State shall have the right to reject all bids or to cancel a solicitation or invitation to bid. Cancellation may be for reasons that include but are not limited to: (i) inadequate or ambiguous specifications; (ii) specifications have been revised; (iii) property is no longer required; (iv) there is a change in requirements; (v) all bids are deemed unreasonable or sufficient funds are not available; (vi) bids were not independently arrived at or were submitted in bad faith; (vii) it is determined that all requirements of the solicitation process were not met; (viii) insufficient competition; or (ix) it is in the best interests of the state of Idaho.

**AWARD PROCEDURES**

For contracts with a total value of $100,000 or less, the State will email all respondents within five (5) business days following the solicitation closure of its intent to award a contract(s) and the party(ies) to whom the contract(s) will be awarded and will then email a contract award to the successful respondent(s).

IDL reserves the right to enter negotiations in accordance with IDL Procurement Policy 13.

For contracts with a total value of more than $100,000, the State will notify all respondents within five (5) business days following the solicitation closure, by mail and/or email, of its intent to award a contract and the party(ies) to whom the contract will be awarded. After elapse of the five (5) day appeal period, if no appeals are received, the State will award a contract to the successful respondent(s).

Respondents to whom a contract has been awarded will have fourteen (14) calendar days from the mailing date of the award notice to return to the State a signed copy of the contract along with the required certificates of insurance. If the State does not receive such documents within the specified time period, the State may declare, at its sole discretion, that all respondent’s rights to the contract are forfeited, and the State may proceed without further delay or notice to award the contract to the next low respondent.

without the prior written consent of the State.
22. **OWNERSHIP**

All information furnished to the Contractor for its use pursuant to this Contract shall belong to the State and shall be returned to the State in good order upon completion of the Contract or upon the State’s request. All documents, reports, and any other data developed by the Contractor for the State in the performance of this Contract shall become the property of the IDL. The State shall retain exclusive rights of ownership to all work produced by the Contractor under this Contract.

23. **APPROPRIATION BY LEGISLATURE REQUIRED**

It is understood and agreed that the State is a government entity and this Contract shall in no way or manner be construed so as to bind or obligate the State beyond the term of any particular appropriation of funds by the State’s Legislature as may exist from time to time. The State reserves the right to terminate this contract in whole or in part (or any order placed under it) if, in its judgment, the Legislature of the state of Idaho fails, neglects, or refuses to appropriate sufficient funds as may be required for the State to continue such payments. All affected future rights and liabilities of the parties hereto shall thereupon cease within ten (10) calendar days after notice to the Contractor. It is understood and agreed that the State's payments herein provided for shall be paid from Idaho State Legislative appropriations and, in some instances, direct federal funding.

24. **FORCE MAJEURE**

Neither party shall be liable or deemed to be in default for any Force Majeure delay in shipment or performance occasioned by unforeseeable causes beyond the control and without the fault or negligence of the parties, including, but not restricted to, acts of God or the public enemy, fires, floods, epidemics, quarantine, restrictions, strikes, freight embargoes, unusually severe weather, provided that in all cases the Contractor shall notify the State promptly in writing of any cause for delay and the State concurs that the delay was beyond the control and without the fault or negligence of the Contractor. If reasonably possible, the Contractor shall make every reasonable effort to complete performance as soon as possible.

25. **ENTIRE AGREEMENT**

This Contract, with the State’s Invitation to Bid, Request for Proposal or Request for Quotation, including any addenda (such deemed incorporated by reference) and the vendor’s response, to the extent it is not in conflict with the specifications or the States terms and conditions (such document deemed incorporated by reference), constitute the entire agreement between the parties with respect to the subject matter hereof and shall supersede all previous proposals or quotations, both oral and written, discussions, representations, commitments, and all other communications between the parties. Where terms and conditions specified in the State’s documents or the Contractor’s response differ from those specifically stated in this Contract, the terms and conditions of this Contract shall apply.

26. **CONTRACT TERMINATION**

a. **TERMINATION FOR CAUSE WITH NOTICE:**

1. The occurrence of any of the following events shall be an Event of Default under this Contract:

   a. A material breach of any term or condition of this Contract; or
   
   b. Any representation or warranty by Contractor in response to the Solicitation or in this Contract proves to be untrue or materially misleading; or
   
   c. Institution of proceedings under any bankruptcy, insolvency, reorganization or similar law, by or against Contractor, or the appointment of a receiver or similar
officer for Contractor or any of its property, which is not vacated or fully stayed within thirty (30) calendar days after the institution or occurrence thereof; or

d. Any default specified in another section of this Contract.

2. The State may terminate the Contract (or any order issued pursuant to the Contract) when the Contractor has been provided written notice of default or non-compliance and has failed to cure the default or non-compliance within a reasonable time, not to exceed thirty (30) calendar days. If the Contract is terminated for default or non-compliance, the Contractor will be responsible for any costs resulting from State's placement of a new Contract and any damages incurred by the State, as a result of the default. The State, upon termination for default or non-compliance, reserves the right to take any legal action it may deem necessary including, without limitation, offset of damages against payment due.

3. Upon written notice of default, Contractor shall be in breach of its obligations under this Contract and the State shall have the right to exercise any or all of the following remedies:

   a. Exercise any remedy provided by law or equity;

   b. Terminate this Contract and any related Contracts or portions thereof;

   c. Impose liquidated damages as provided in this Contract;

   d. Suspend Contractor from receiving future bid solicitations;

   e. Suspend Contractor's performance;

   f. Withhold payment until the default is remedied.

b. TERMINATION FOR CAUSE WITHOUT NOTICE

The State shall not be required to provide advance written notice or a cure period and may immediately terminate this Contract in whole or in part for an Event of Default if the State, in its sole discretion, determines that it is reasonably necessary to preserve public safety or prevent immediate public crisis. Time allowed for cure shall not diminish or eliminate Contractor's liability for damages, including liquidated damages to the extent provided for under this Contract.

c. TERMINATION FOR CONVENIENCE

   i. The State may terminate this Contract for its convenience in whole or in part, if the State determines it is in the State’s best interest to do so.

   ii. After receipt of a notice of termination for convenience, and except as directed by the State, the Contractor shall immediately proceed with the following obligations, as applicable, regardless of any delay in determining or adjusting any amounts due under this clause. The Contractor shall:

       a. Stop work.

       b. Place no further subcontracts for materials, services, or facilities, except as necessary to complete the continuing portion of the Contract.

       c. Terminate all subcontracts to the extent they relate to the work terminated.
d. Settle all outstanding liabilities and termination settlement proposals arising from the termination of subcontracts.

iii. Unless otherwise set forth in the Solicitation, if the Contractor and the State fail to agree on the amount to be paid because of the termination for convenience, the State will pay the Contractor the following amounts; provided that in no event will total payments exceed the amount payable to the Contractor if the Contract had been fully performed:

a. The Contract price for Deliverables or services accepted by the State and not previously paid for; and

b. The total of:

   i. The reasonable costs incurred in the performance of the work terminated, including initial costs and preparatory expenses allocable thereto, but excluding any cost attributable to Deliverables or services paid or to be paid;

   ii. The reasonable cost of settling and paying termination settlement proposals under terminated subcontracts that are properly chargeable to the terminated portion of the Contract; and

   iii. Reasonable storage, transportation, demobilization, unamortized overhead and capital costs, and other costs reasonably incurred by the Contractor in winding down and terminating its work.

iv. The Contractor will use generally accepted accounting principles, or accounting principles otherwise agreed to in writing by the parties, and sound business practices in determining all costs claimed, agreed to, or determined under this clause.

d. TERMINATION FOR FISCAL NECESSITY

The State is a government entity and it is understood and agreed that the State's payments herein provided for shall be paid from Idaho State Legislative appropriations. The Legislature is under no legal obligation to make appropriations to fulfill this Contract. This Contract shall in no way or manner be construed so as to bind or obligate the State beyond the term of any particular appropriation of funds by the State's Legislature as may exist from time to time. The State reserves the right to terminate this Contract in whole or in part (or any order placed under it) if, in its sole judgment, the Legislature of the State of Idaho fails, neglects, or refuses to appropriate sufficient funds as may be required for the State to continue such payments, or requires any return or "give-back" of funds required for the State to continue payments, or if the Executive Branch mandates any cuts or holdbacks in spending, or if funds are not budgeted or otherwise available, or if the State discontinues or makes a material alteration of the program under which funds were provided. The State shall not be required to transfer funds between accounts in the event that funds are reduced or unavailable. All affected future rights and liabilities of the parties shall thereupon cease within ten (10) calendar days after notice to the Contractor. Further, in the event of non-appropriation, the State shall not be liable for any penalty, expense, or liability, or for general, special, incidental, consequential or other damages resulting therefrom.

27. PERFORMANCE OF THE CONTRACTOR
Failure of the Contractor to commence operations as mutually agreed upon by the Contractor and the State, to maintain the required production rate, to complete operations as prescribed herein, or failure to meet other terms of the contract, shall give the State the right to terminate the Contract. Such termination shall not affect any rights of the State for recovery of damages from any payment for services due Contractor hereinbefore provided for in any action at law or in equity.

28. MODIFICATION

This Contract may not be released, discharged, changed or modified except by an instrument in writing signed by a duly authorized representative of each of the parties.

29. PUBLIC RECORDS

Pursuant to Idaho Code Section 74-101 through 74-126, information or documents received from the Contractor may be open to public inspection and copying unless exempt from disclosure. The Contractor shall clearly designate individual documents as “exempt” on each page of such documents and shall indicate the basis for such exemption. The State will not accept the marking of an entire document as exempt. In addition, the State will not accept a legend or statement on one (1) page that all, or substantially all, of the document is exempt from disclosure. The Contractor shall indemnify and defend the State against all liability, claims, damages, losses, expenses, actions, attorney fees and suits whatsoever for honoring such a designation or for the Contractor’s failure to designate individual documents as exempt. The Contractor’s failure to designate as exempt any document or portion of a document that is released by the State shall constitute a complete waiver of any and all claims for damages caused by any such release. If the State receives a request for materials claimed exempt by the Contractor, the Contractor shall provide the legal defense for such claim.

30. CONFIDENTIAL INFORMATION:

Pursuant to this Contract, Contractor may collect, or the State may disclose to Contractor, financial, personnel or other information that the State regards as proprietary, confidential or exempt from disclosure (“Confidential Information”). Confidential Information shall belong solely to the State. Contractor shall use such Confidential Information only in the performance of its services under this Contract and shall not disclose any Confidential Information to any third party, except with the State’s prior written consent or under a valid order of a court or governmental agency of competent jurisdiction, and then only upon timely notice to the State. The State may require that Contractor’s officers, employees, agents or subcontractors separately agree in writing to the obligations contained in this section or sign a separate confidentiality agreement. Confidential Information shall be returned to the State upon termination of this Contract. The confidentiality obligation contained in this section shall survive termination of this Contract. Confidential Information shall not include data or information that:

a. Is or was in the possession of Contractor before being furnished by the State, provided that such information or other data is not known by Contractor to be subject to another confidentiality agreement with or other obligation of confidentiality to the State;

b. Becomes generally available to the public other than as a result of disclosure by Contractor; or

c. Becomes available to Contractor on a non-confidential basis from a source other than the State, provided that such source is not known by Contractor to be subject to a confidentiality agreement with or other obligation of confidentiality to the State.
31. **NON-WAIVER**

The failure of any party, at any time, to enforce a provision of this Contract shall in no way constitute a waiver of that provision, nor in any way affect the validity of this Contract, any part hereof, or the right of such party thereafter to enforce each and every provision hereof.

32. **NO WAIVER OF SOVEREIGN IMMUNITY**

In no event shall this Contract or any act by the State, be a waiver of any form of defense or immunity, whether sovereign immunity, governmental immunity, immunity based on the Eleventh Amendment to the Constitution of the United States or otherwise, from any claim or from the jurisdiction of any court. If a claim must be brought in a federal forum, then it must be brought and adjudicated solely and exclusively within the United States District Court for IDL. This section applies to a claim brought against the State only to the extent Congress has appropriately abrogated the State’s sovereign immunity and is not consent by the State to be sued in federal court, or a waiver of any form of immunity, including but not limited to sovereign immunity and immunity based on the Eleventh Amendment to the Constitution of the United States.

33. **ATTORNEYS’ FEES**

In the event suit is brought or an attorney is retained by any party to this Contract to enforce the terms of this Contract or to collect any moneys due hereunder, the prevailing party shall be entitled to recover reimbursement for reasonable attorneys’ fees, court costs, costs of investigation and other related expenses incurred in connection therewith in addition to any other available remedies.

34. **TRASH CLEANUP**

The Contractor shall be responsible for picking up and properly disposing of all trash generated as a result of this Contract at the end of each day. This includes any camps made by Contractor personnel. Cleanup shall be done to the satisfaction of the COR and shall not affect any rights of the State or Forest Service for the recovery of costs of the cleanup.

35. **CAMPING ON NATIONAL FOREST OR STATE LAND**

Contractor personnel may, with written approval from the State, camp during the Contract period on National Forest or State land. Such camping will be at the Contractor’s own risk. Any camps will be made according to conditions set forth by the IDL and the United States Forest Service and be in compliance with State Land Board and Federal rules and regulations for fire prevention.

The Contractor shall request a camping permit from the COR for each area in which the Contractor’s crew plan on camping within the National Forest or State Lands boundary. Provisions that apply to all camping on National Forest and State lands will be discussed in detail at the pre-work conference.

36. **FIRE PREVENTION RESPONSIBILITIES**

a. The Contractor will adhere to the State Land Board and Federal rules and regulations which set forth fire prevention safety precautions for woods operations. Such rules and regulations are available at any IDL or United States Forest Service office. These rules and regulations will be outlined during the pre-work conference with the Contractor.

b. The Contractor shall not build any open fires at any time of the year on the contract area without first obtaining written permission from the State.

c. Fire spreading through the Contract area, which is a result of the Contractor’s operation or employees’ actions, shall be the liability of the Contractor.
37. **GOVERNMENT REGULATIONS**
The Contractor shall abide by and comply with all laws and regulations of the United States, the State of Idaho including the Forest Practices Act (Title 38, Chapters 1 and 13, Idaho Code), counties or other governmental jurisdictions wherein the work is executed insofar as they affect this contract. Contract will be signed using DocuSign electronic signatures
PROJECT DESCRIPTION

SUPERVISORY AREA: Emmett Ranger District, Boise National Forest

PROJECT NAME: High Forks Non-Commercial Thinning

PROJECT NUMBER: 23-204-021001

PROJECT ACRES: 913 Acres

PROJECT LOCATION: High Valley, Idaho

The High Valley Integrated Restoration Project (High Forks Non-Commercial Thinning) is located on the Emmett Ranger District within the Boise National Forest. The project is located in Valley County approximately 4 miles southwest of Smiths Ferry, Idaho. The project area covers approximately 7,736 acres in the Upper and Lower Little Squaw Creek watersheds, surrounding High Valley, Idaho. Approximately 913 acres of the project area will be treated by the High Forks Non-Commercial Thinning contract.

AREA HISTORY:

The Boise National Forest (Forest) Land and Resource Management Plan1 (Forest Plan) identifies the High Valley Project Area as a high-priority area for restoring vegetation and short term wildlife habitat. The Boise Forest Coalition (BFC), a citizen-led collaborative group, developed specific recommendations for the High Valley Integrated Restoration Project (High Valley Project) based on information in the 2010 Forest Plan. BFC recommendations included restoring forest and ecological health, reducing forest fuel hazards, creating economic opportunities, producing forest products, and maintaining and enhancing fish and wildlife habitats. The Emmett Ranger District used these and other recommendations to inform the development of the four purpose and need statements and the Proposed Action, and on March 29, 2016, the Forest published the High Valley Integrated Restoration Project EA to disclose the direct, indirect, and cumulative environmental effects which would result from the Proposed Action and alternatives of the High Valley Project.

The High Valley GNA timber sale was harvested 2019 – 2021. In addition, a “Fell Damaged Residuals” and Lopping contract was completed in the fall of 2021.

ACCESS:

Units are accessed by the 601 & 644 rocked main haul roads, the 606 secondary native surface road, and the 601D, 601E, 601J, 601H, 601G native surface spur roads.
TREATMENT TYPE:

*2022 operating season from 8/16/22 thru 11/30/22. Only units listed above (NCT Units 2022) shall be completed.

*2023 operating season from 8/16/23 thru 11/30/23. All units not completed in 2022 season shall be finished.

WORK TO BE PERFORMED:

I. Non-Commercial Thinning:

1. The Contractor shall furnish all labor, equipment, supervision, transportation, supplies, and incidentals to perform all work necessary on the areas specified. All aspects of the work program shall be performed in an organized, systematic manner to assure services will be performed over the entire unit.

   a. Use of motorized equipment other than hand-held equipment such as power saws and brush cutters shall not be permitted off designated roads in the project area without prior approval of the COR.

   b. Work will not be permitted when, in the opinion of the COR, excessive soil disturbance would result from equipment usage or road/trail damage would occur from vehicles gaining access to the project area.

   c. Unit boundaries are flagged with orange ribbon and are painted on three (3) sides of the cutting unit boundary trees with vertical stripes of orange paint extending from diameter breast height (DBH) upwards approximately 2 feet. Where a cutting unit is adjacent to a system road, the road is the boundary and no paint was used.

   d. No non-commercial thinning shall occur within the sale area between May 1st to August 15th to protect flammulated owl.

2. Reduce the occurrence of the true firs; grand fir and subalpine fir in the High Forks Project by thinning trees 8 inches and less in diameter measured at breast height (dbh). Retain
sub-merchantable seral species such as western larch, ponderosa pine, and healthy Douglas-fir.

a. Leave trees shall generally be ponderosa pine (PP), western larch (WL) and Douglas-fir (DF). Incidental species to leave are Engelmann spruce (ES), lodgepole pine (LP) and aspen (AS). Do not cut western larch or aspen.

b. All grand fir and subalpine fir existing in the unit that fall into the sub-merchantable (< 8 inches dbh) category shall be cut.

c. Additionally, sub-merchantable trees of all species (< 8 inches dbh) shall be cut if they occur within in the dripline or within 15 feet from the bole of a leave tree (> 8 inches dbh), whichever is greater.

d. The minimum tree size for thinning shall be 12 inches in height.

e. Cut all ES, LP, and DF that show signs of insects, disease (e.g. mistletoe), broken tops, are deformed (crooks, forked top, deep scars or damage to the bark on more than ¼ of the circumference of the tree), or have a live crown ratio <35 percent.

2. Cut trees shall be felled away from the following: unit boundaries, roads, power lines, established trails, ATV/motorcycle trails, gates, established fire-breaks, fence lines, established land corners, designated leave trees, drainage ditches, culverts, and perennial and intermittent streams. Any trees falling on such areas shall be removed per slash treatment below. Cut trees shall not be criss-crossed or jackstrawed when felled.

a. Lopping shall occur so that slash depth shall not exceed 36”. Trees that have been felled should be bucked at a diameter of 4 inches.

b. Trees shall be completely severed from the stump on a horizontal plane. Stump height shall not exceed 6 inches above the ground or 4 inches above natural obstacles. Diagonal cuts resulting in a sharp, pointed stump are unacceptable.

c. All trees not reserved from cutting shall be cut below the lowest live limb, except when prevented by natural obstacles. When natural obstacles are found, all live limbs over 4 inches in length below the cutting point shall be removed.

d. Cut trees shall be directionally felled away from leave trees and groups. Felling into the surrounding open area will eliminate the accumulation of slash among the remaining trees.

e. All slash created by operations performed under this contract shall be removed from cutslopes and pulled back at least 5 feet from top of roadcut displayed on the attached contract map.

f. All slash created by operations performed under this contract shall be removed at least 15 feet above all culvert intakes.

IMPACT STATEMENT:

1. **Aesthetics:** Non-Commercial Thinning will not affect the visual quality objectives in the High Valley Integrated Restoration Project Decision.
2. **Cultural Resources:** All units have been surveyed for archeologic sites, and no known sites have been found. However, in the event new cultural sites are discovered, ground-disturbing activities in the area shall stop until a qualified archaeologist is consulted and appropriate mitigation identified, as needed, to avoid/protect these sites.

3. **Riparian:**
   
   a. Any refueling or mechanical work on chainsaws shall not be done within 150 feet of any perennial or intermittent stream.
   
   b. Store no fuel in RCAs. Refueling or servicing of vehicles or equipment should not take place within RCAs (within 130 feet of perennial or intermittent streams).
   
   c. All equipment shall be in good repair and free of leakage of lubricants, fuels, coolants, and hydraulic fluid.

4. **Leases:** No leases or special uses, mining claims or range allotments are affected by this Non-commercial thinning contract.

5. **Wildlife:**
   
   a. If any threatened, endangered or sensitive species were located during implementation of the proposed action, management activities will be altered, if necessary, so that proper protection measures could be taken. None have been found to date.
   
   b. *No non-commercial thinning shall occur within the sale area between May 1st to August 15th to protect flammulated owl.*
   
   c. Report the finding of any active Goshawk nest immediately to the COR and stop all operations within a 650-foot radius around the nest site. No non-commercial thinning shall occur within a 650 foot radius of an active Goshawk nest. In addition, no non-commercial thinning shall occur within in a 1,500 foot buffer around active Goshawk nest trees from March 1st through August 15th. *No known nests are currently located within the contract area boundary.*
   
   d. Upon discovery of an active bald eagle nest during project implementation the following timing and spatial restrictions on proposed activities shall be implemented to minimize or avoid disruption of reproductive activity: no non-commercial thinning shall occur within 660 feet of the nest tree for the duration of the nesting period (February 1 through August 31). Thinning of trees in the understory will occur outside of the nesting period or when eagles are otherwise not present as determined by the a USFS wildlife biologist. *No known nests are currently located within the contract area boundary.*

6. **General:**
   
   a. The contractor shall obtain a camping permit from the Boise National Forest Emmett district office prior to camping on National Forest land. Final payment shall be withheld until the authorized camping area has been cleaned up to the requirements of the Camping Permit.
b. If the Contractor does not obtain a camping permit but requires his/her employees to obtain the camping permit, the Contractor remains responsible for campsite clean-up and his/her employee conduct while camping on National Forest land.

c. Protection from Ips buildup – Unless permitted in writing by COR, there shall be no felling or bucking of Ponderosa Pine within all units identified on the Sale Area Map during the period of December 1 to June 30. If written permission is granted, it may be conditioned upon a requirement that the purchaser provide a continuous food chain of green Ponderosa Pine material, stems, and slash during the period July 1 to September 15, following the cutting.

PERIOD OF PERFORMANCE:

Contract work may commence after August 16th, 2022 and when the contractor has received a signed copy of the contract and has had a pre-work conference with the COR. All work will be completed by November 30, 2023.

INSPECTION & COMPLIANCE:

Either a 1/20th acre circular plot (26.3 feet radius horizontal distance) or a 1/50th acre circular plot (16.65 ft. radius horizontal distance) will be used for inspection on a grid.

DETERMINATION OF WORK QUALITY PERCENTAGE:

Work quality percentages are derived from data developed from inspection plots. The final work quality percentage times the bid price determines the pay. A work quality percentage of 90 percent or higher will result in full payment. If high stumps or uncut surplus trees are the primary reason for unsatisfactory work, the Contractor shall rework areas designated by IDL until satisfactory work quality is obtained.

Example:  
Number of trees cut per plot = 40  
Number of unacceptable cuttings = 8 trees  
8 divided by 40 X 100 = 20%  
2 leave trees damaged = 2%  
100% minus 22% = 78%  
78% X bid price for job = Pay Rate

Satisfactory Work Quality: A minimum work quality standard of 90 percent is required.

Unsatisfactory Work Quality: Based on inspection results, if the work quality percentage falls below 90 percent, the IDL COR will immediately notify the Contractor in writing and instruct the Contractor to improve the quality of the work. If the quality of the work is not raised to an acceptable level within two consecutive workdays after written notification, the IDL COR may issue a stop work order.

CONTRACT PAYMENT:

Payment will be made to the Contractor upon satisfactory completion of all fieldwork at the rates set forth in Schedule A. Invoices must be sent to Chase Bolyard - cbolyard@idl.idaho.gov. Payment will be made after receipt of contractor’s itemized invoice for satisfactorily completed work. Itemized
invoices shall be submitted no more than monthly and will include a description of services completed during the period being invoiced.

Instructions for Certification

(1) By signing and submitting this form, the prospective lower tier participant is providing the certification set out on page 1 in accordance with these instructions.

(2) The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension or debarment.

(3) The prospective lower tier participant shall provide immediate written notice to the person(s) to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(4) The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549, at 2 C.F.R. Parts 180 and 417. You may contact the department or agency to which this proposal is being submitted for assistance in obtaining a copy of those regulations.

(5) The prospective lower tier participant agrees by submitting this form that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.

(6) The prospective lower tier participant further agrees by submitting this form that it will include this clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

(7) A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the System for Award Management (SAM) database.

(8) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(9) Except for transactions authorized under paragraph (5) of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
