To mitigate exceeding length of assignment guidelines and manage the days of rest, the Government has the option to:

9.8 EMERGENCY INCIDENT DRIVING:

The Contractor shall follow the driving regulations and work/rest guidelines listed in the NWCG Standards for Interagency Incident Business Management (SIIBM). The Contractor is responsible for complying with all other current Federal, State and Local driving regulations. Multiple drivers in a single vehicle may drive up to the duty-day limitation provided no driver exceeds the individual driving time (behind the wheel/actual driving time) limitation of 10 hours. A driver shall drive only if they have had at least 8 consecutive hours off duty before beginning a shift. An exception to the minimum off-duty hour

requirement is allowed when essential to:

- (1) Accomplish immediate and critical suppression objectives, or
- (2) Address immediate and critical firefighter/responder or public safety issues.

As stated in the current agency work/rest policy, documentation of mitigation measures used to reduce fatigue is required for personnel who exceed 16 hour work shifts. The resource shall arrive at the incident or designated inspection point washed and free of noxious weed seeds. Equipment with frames and cross-members will be inspected and all debris collecting areas including belly pans, guards and coverings must be washed to alleviate the spread of noxious weed seeds and to protect against grease and oil soaked residues catching on fire in belly pans and skid plates. Heavy equipment operators shall manually clean tracks and belly pans before leaving project site on all heavy equipment.

11.6 TRAVEL TIME

The Government will estimate the travel time to and from the incident. Travel time via ground transportation shall be calculated by dividing distance (from point of hire to incident, or incident to incident or incident to point of hire) by average travel speed of 45 mph, plus applicable rest time. Delay due to weather, traffic, road construction, and mechanical failure is not compensable for any travel time exceeding the estimate from the Travel Time Formula.

CLAUSE 12: PAYMENTS

The host agency for each incident is responsible for payments.

12.1 TIME UNDER HIRE:

The time under hire shall start at the time the resource begins traveling to the incident after being ordered by the Government, and end at the estimated time of arrival back to the point of hire after being released, except as provided in 12.4 EXCEPTIONS.

12.2 RATES OF PAYMENTS:

Payment will be at rates specified and shall be in accordance with the following:

 On-Shift includes time worked, time that resource is held or directed to be in a state of readiness, and compensable travel (resource traveling under its own power) that has a specific start and ending time.

- The vendor will be paid for travel to and from the incident from the Point of Hire City and State designated on the OF-294. Vendor must meet date and time needed. Failure to meet the date/time needed may result in a negative performance evaluation.
- Rates for equipment hired with Contractor Furnished operator(s) shall include all operator(s) expenses. Payment will be at rates specified and, except as provided in the <u>EXCEPTIONS portion of this</u> <u>document</u>, shall be in accordance with the following:
 - Work Rates (column 12) (hourly/daily/mileage/shift basis) shall apply when equipment is under hire as ordered by the Government and on shift, including relocation of equipment under its own power.
 - Special Rates (column 13) shall apply when specified.
 - Guarantee. For each calendar day that equipment is under hire for at least 8 hours, the Government will pay not less than the amount shown in column 14.
 - If equipment is under hire for less than 8 hours during a calendar day, the amount earned for that day will be not less than onehalf the amount specified in column 14.
 - The guarantee is not applicable to equipment hired under the Daily rate.
 - If equipment is transported under its own power, it is compensated under the Daily rate.
 - Daily Rate (column 12) Payment will be made on basis of calendar days (0001 – 2400). For fractional days at the beginning and ending of time under hire, payment will be based on 50 percent of the Daily Rate for periods less than 8 hours. Under the daily rate equipment may be staffed with or without operator.
 - Shift Basis (Portion of calendar day)
 - Single Shift (SS) is staffed with one operator or one crew
 - Double Shift (DS) is staffed with two operators or two crews (one per shift). The DS rate will apply any calendar day the DS was under hire, including travel. There will be no compensation for a double shift unless a separate operator(s) and or crew(s) is/are ordered in writing for the second shift.
 - Agency personnel at the Section Chief Level may, by resource order, authorize a second operator or crew (Double Shift), if needed during the assignment.
 - Personnel- if the number of personnel in block 11 is not staffed with the number of operators specified the government may reduce the daily rate by \$300 per day.
 - Transport- ONE OPERATOR FOR BOTH TRANSPORT AND HEAVY EQUIPMENT. Same Resource Order Number as Heavy Equipment Minimum guarantee for transports is reduced to 65%; the mileage rate is not reduced. For time under hire for 8 hours or more, the government will pay 65% of the minimum daily guarantee or mileage rate, whichever is greater. If a resource is under hire for less than 8 hours on the first or last day, the amount paid for that day will be 32.5% of the minimum daily guarantee or mileage rate, whichever is greater.

12.3 METHOD OF PAYMENT:

Lump-sum payment will normally be processed at the end of the emergency assignment. However, partial payment may be authorized as approved by the incident agency. Payment for each calendar day will be made for (1) actual units ordered and performed under Work or Daily, shift basis and/or Special rates or (2) the guarantee (if applicable) earned, whichever is the greater amount.

12.4 EXCEPTIONS:

- No further payment will accrue during any period that resource under hire is not in a safe or operable condition or it is not available for the assigned shift or portions of the assigned shift. Payment will be based on the hours the resource was operational during the assigned shift, as documented on the shift ticket versus the designated shift, as shown on the Incident Action Plan. If the equipment was not operational for the full shift, the deduction from the daily rate is calculated by converting the length of shift from the IAP to determine the hourly rate and pay the contractor for the total hours worked before equipment became nonoperational.
- If the Contractor withdraws resources prior to being released by the Government, no further payment shall accrue and the Contractor shall bear all costs of returning resources to the point of hire.
- After inspection and acceptance for use, resources that become inoperable and cannot be repaired at the site of work by the Contractor or by the Government within 24 hours, may be considered

as being withdrawn by the Contractor in accordance with above guidance with the exception that the Government shall pay return travel. The Government shall calculate travel based on a normal release of resource. The Contractor shall bear any additional cost returning resource and/or operator(s) to the point of hire.

 No payment will accrue when the contractor is off shift in compliance with the mandatory Work/Rest and Length of Assignment provisions.
