Comment:

T hanks for the opportunity to comment. I am commenting for the Idaho Outfitters and Guides Association on behalf of the many Outfitters who are permitted on Idaho State Lands.

010.02 Endowment Lands- Does this definition include lands the state has traded? Is it limited to the lands granted at statehood? A better definition please.

020.20 Continued Camping- consider adding "or under permit" at the end. Many Outfitters will have a permit which allows for a longer period of use.

020.03.d – Consider adding "unless otherwise permitted" at the end. Many Outfitters will have a permit for the use of roads after the normal road closure time. IE cougar hunts , wolf hunting , over snow use.

Thanks for the updates and Good Luck.
Jeff Bitton President IOGA
