

Recreational Dredging Application 2023 - 2024

Joint Permit Application Form U.S. Army Corps Of Engineers - For Sections 404 and 10 Utah State Engineer's Office - For Natural Stream Channels

Recreational dredging is the operation of one vacuum or suction dredge with an intake diameter of four inches or less, having a rating of 12 HP or less. Dredging activity with either hand-operated or mechanized equipment must occur beneath the existing water surface of an active stream channel or upon nonvegetated sand and gravel bars exposed within the active stream channel for a period not to exceed 45 days annually. (Activities in excess of the conditions stipulated in this permit will require other forms of permitting. Please contact the Division of Water Rights, the Division of Oil, Gas, and Mining, or the appropriate Federal land management agency for more information).

Note: This office does not regulate when prospecting is conducted beneath the existing water surface of an active stream channel and no mechanized equipment is used (hand tools and a pan may be used).

Applicant's Name (Last, First, M.I.)	Telephone: Area Code & Number ()
Applicant's Address: (Street, RFD, Box Number)	
(City, State, Zip)	
Description of Equipment. Select all that apply, however, only one piece of equipment can be used at a time. Multiple options may be selected by holding down the [Ctrl] key while clicking on each desired option.	
Dredge(s) with an intake nozzle less than or equal to four(4) inches and HP rating of 12HP or less.	

Application is hereby made for a permit or permits to authorize the activities described herein. I certify that I am familiar with the information contained in the application, and that to the best of my knowledge and belief such information is true, complete and accurate. I agree to abide by [conditions 1 through 14 of this application](#).

List of Streams available for Recreational Dredging with valid Utah Dredging Permit - 2023 - 2024

Note: This permit does not constitute an easement or right-of-way to trespass across or work upon property or mining claims belonging to others. The responsibility to contact property owners or mining claim holders for permission to enter upon their lands is left to the permittee. Please contact the land management agency indicated regarding travel and access.

**** You MUST check the box on the right hand column below for streams on which you will most likely be working.**

***** The Land Management agency (both USFS and BLM) must be contacted prior to any activity or permit will be void.**
