The Contractor (i.e., Certificate Holder) as defined in IDAPA 20.04.02.010.03 hereby attests that a copy of this agreement will be provided to the initial Purchaser(s) of forest products prior to delivery of products.

Purchaser Name Address/Phone

CERTIFICATE OF COMPLIANCE PURSUANT TO IDAHO CODE §38-122

Notification Only

Certificate of Compliance issued to: Contractor Name

Mailing Address: Street City State Zip

Phone: Email:

The person engaged in cutting of forest products agrees to provide for the management and reduction of fire hazard in accordance with the following option:

OPTION 1 No Hazard Created: The Contractor attests that he or she will not cut an amount of timber sufficient to cause a fire hazard. Purchaser(s) need not withhold slash management monies but are required to report all products purchased to the Idaho Department of Lands (IDL).

OPTION 2 Bond Withholding: The Contractor elects to treat the fire hazard created and to subsequently receive a refund of slash monies withheld. The Contractor will supply a cash bond to IDL by having the purchaser(s) withhold the specified dollars per thousand board feet or equivalent, if forest products other than sawlogs are delivered to the purchaser(s).

Upon completion of the fire hazard management work, the Contractor will notify IDL in writing whereupon IDL may inspect for satisfactory completion. IDL will make payment of the withheld monies, less six percent to the Fire Suppression/Forest Practice accounts, and issue a Certificate of Clearance. If the Contractor fails to manage the fire hazard, all bond monies will be forfeited. The Contractor will be liable for the cost of suppression after the expiration date of this agreement, if the work is not completed, as specified in Idaho Code §38-122.

OPTION 3 Surety Bond: The Contractor agrees to operate under the terms of a surety bond, currently in force, which provides for management of fire hazards on the land above described. Purchaser(s) need not withhold slash management monies but are required to report all forest products purchased to IDL. The surety bond provided by the Contractor to IDL is in an amount sufficient to equal the current minimum cash bond for all forest products to be harvested. The Contractor will pay six percent of the current minimum bond rate to the Fire Suppression/Forest Practice accounts for all forest products harvested. The Contractor will manage the fire hazard created to the specifications in IDAPA 20.04.02.000 et seq. (the "Slash Rules") on or before the expiration date of this agreement (or extension).

Upon completion of the fire hazard management work, the Contractor will notify IDL in writing whereupon IDL may inspect for satisfactory completion and issue a Certificate of Clearance. If the Contractor fails to manage the fire hazard, IDL will make demand upon the bond for the costs of managing the fire hazard. The Contractor will be liable for the costs of the suppression after the expiration date of this agreement, if the work is not completed as specified in Idaho Code §38-122.

OPTION 4 Contract: The Contractor has entered into a contract with IDL for management of the fire hazard in accordance with Idaho Code, §38-404. Purchaser(s) shall withhold slash management monies at the rate indicated on this agreement for all forest products delivered to the purchaser(s) and shall report and remit such withholding to IDL. Once the Contractor has paid the full amount of monies for the contract area, IDL will issue a Certificate of Clearance. IDL will manage the fire hazard to the specifications of IDAPA 20.04.02.000 et seq. (the "Slash Rules").

OPTION 5 State-Owned Property: IDL will be the Certificate Holder. Purchaser(s) need not withhold slash monies but are required to report all products purchased to IDL. IDL will manage the fire hazard to the specifications of IDAPA 20.04.02.000 et seq. (the "Slash Rules").

All Options: Purchaser(s) will report volume and/or remit monies as indicated for the particular option on or before the end of the month for the preceding month's purchases. The slash withholding rate shall be the minimum rate in force at the time the products are delivered to the Purchaser unless otherwise indicated as follows: \$ \_\_\_\_\_ per \_\_\_\_\_.

This Certificate of Compliance expires: \_\_\_\_\_ unless IDL grants a written extension.

**NOTIFICATION OF FOREST PRACTICE PURSUANT TO IDAHO CODE §38-1306**

This Notification is being made by: \_\_\_\_\_  
 (Landowner, Timber Owner, or Operator)

Operator: \_\_\_\_\_  
 Operator Name

Mailing Address: \_\_\_\_\_  
 Street City State Zip

Phone: \_\_\_\_\_ Email: \_\_\_\_\_

If a non-resident Operator (See Idaho Code §38-1303(3)) does not own real property in the state of Idaho, the Operator will be required to post a bond under Idaho Code §38-1306A.

**By providing the following notification, the Operator, Landowner, or Timber Owner named above agrees to comply with provisions of Idaho Code §38-1306:**

- Harvesting of Forest Tree Species
- Road Construction Associated with Harvesting of Forest Tree Species
- Reforestation Met by:
  - Leaving Adequate Residual Stocking
  - Planting
  - Exempt
- Management of Slashings or Use of Prescribed Fire Resulting from Harvest, Management or Improvement of Forest Tree Species
- Use of Chemicals or Fertilizers for the Purpose of Growing or Managing Forest Tree Species
- Conversion in Use to:
  - Agriculture/Grazing
  - Development
  - Other
- Forest Practice Occurring on State-Administered Land

**The following information shall be provided to the Idaho Department of Lands to evaluate the potential for water quality and erosion impacts.**

- |  |  |   |   |  |

This notification expires \_\_\_\_\_ unless IDL grants a written extension. IDL's authority to enter the property to conduct inspections survives the expiration of the Certificate of Compliance.

**The following are applicable to all of the options:**

- This Certificate may be cancelled, revoked, rescinded or amended by IDL for failure to comply with any provision herein upon written notice to the Contractor, Landowner, Timber Owner, Operator, and Purchaser.
- This Certificate may not be assigned to another party or amended by the Contractor, except with the written approval of IDL.
- The Contractor shall retain, and make available for inspection by IDL, the log delivery or payment slips for forest products hauled to all purchasers.
- No forest practice or conversion of forest land shall be conducted until IDL has formally accepted the notification.
- On-site inspections may be conducted by IDL to ensure compliance with all the laws and rules governing fire prevention, fire hazard management, and forest practices on private land.
