Comment:

section 040.03 of the proposed rule (pages 5&6) replaces the \$750 minimum bond with an amount equal to an "estimated reasonable cost of reclamation." We understand that this change reflects changes made to 47-703A, Idaho Code. However, we would like the Department to clearly state how the term "reasonable" is to be defined and the process it will use to establish an "estimated reasonable" fee.
