**DESCRIPTIVE SUMMARY:** The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

The purpose of this rulemaking is to address distinct problems at specific locations on state endowment trust lands. Endowment lands are different than other types of publicly managed land. Idaho's 2.5 million acres of endowment lands are meant to generate revenue through timber, grazing, and other management activities. This revenue helps fund the endowment beneficiaries, primarily K-12 education, and reduces taxes on hard-working Idahoans. Recreational use of endowment land is a secondary privilege allowed only if it does not cause damage or disturb the revenue-generating potential of the land. Unfortunately, damage to endowment land happens all too frequently.

Idaho's increasing population has resulted in more people recreating and compounding damage to endowment land. Destructive behaviors on endowment land reduce the revenue-generating potential of the land and are costly to mitigate.

This rulemaking implements Senate Bill 1049, passed during the 2023 legislative session to help deter destructive behaviors on endowment land. The new law, Section 58-156, Idaho Code, provides an alternative to heavy handed misdemeanor or felony criminal trespass changes for those who damage endowment land. Instead, it allows POST certified Idaho law enforcement to issue warnings/citations for minor offenses. Under the new law, rulemaking is required before a warning ticket or infraction citation may be written.

The proposed rule creates a targeted approach to curb damage to endowment land. The proposed rule addresses extended camping in one location, trail misuse, blocking access points, dumping, and damaging signs. It requires proper use of roads and trails on endowment land; campfires to be contained within a ring; and adherence to Stage 1 and Stage 2 fire restrictions as listed in the Idaho Fire Restrictions Plan. By regulating recreational use of endowment land, the proposed rule will help deter destructive behavior and preserve the lands' revenue-generating potential for the beneficiaries so endowment land can remain open to the public.
