IDAHO DEPARTMENT OF LANDS

STANDARD INFORMATION

ADDENDA

It will be the respondent's responsibility to check for any addenda prior to submitting a bid. In the event it becomes necessary to revise any part of the solicitation documents, addenda will be made available. Information given to a respondent will be available to all other respondents if such information is necessary for purposes of submitting a bid or if failure to give such information would be prejudicial to uninformed respondents.

BURDEN OF PROOF

ANY VARIATIONS of brand names or deviations from the specifications MUST BE CLEARLY STATED. It shall be the responsibility and burden of the submitting vendor to furnish the State WITH ITS ORIGINAL SUBMISSION sufficient data to determine if the goods or services offered conform to the specifications.

VERBAL INFORMATION

The State will not be responsible for any verbal information regarding a bid.

DISQUALIFICATION AND AWARD INFORMATION

The state reserves the right to make reasonable inquiry to determine the responsibility of a contractor. Such requests may include but not be limited to financial statements, credit ratings, statements of experience and past performance, references, etc. Successful contractors must show to the satisfaction of the Idaho Department of Lands that they have sufficient equipment and work crews to complete the work contracted by the time specified. The unreasonable failure of a contractor to promptly supply information in connection with such a request is reason for disqualification. Except as otherwise provided by law, information furnished by the contractor pursuant to this provision may not be disclosed outside the Idaho Department of Lands without prior written consent of the Contractor. Disqualification of a high-ranking contractor may be pursued when their reputation, experience or references are such as to create a doubt about satisfactory job completion or if the price bids are considerably below Department estimates and the other bids. The purchasing agent will contact the contractor and request that they disqualify themselves by withdrawing in writing. If the contractor refuses to withdraw, the purchasing agent may notify the contractor in writing or email that the Department will not offer the contractor a contract and proceed with an award to the next responsible contractor.

PARTNERSHIPS

Contractors responding as partners must furnish the Idaho Department of Lands the name of the partnership, names of the partners, and the partnership's federal taxpayer ID number. All payments will be made to the partnership.

INTERNAL REVENUE SERVICES REPORTING REQUIREMENT

IRS rules and regulations require employers to submit a miscellaneous income form (IRS form 1099) for all contractual persons who receive \$600 or more in a calendar year. Incorporated firms are exempt from this reporting requirement. The contractor's taxpayer identification number (Social Security or employer number) must be listed on the signature page of the contract.

PUBLIC RECORDS

The Idaho Public Records Law, Idaho Code Sections 74-101 through 74-126, allows the open inspection and copying of public records. Public records include any writing containing information relating to the conduct or administration of the public's business prepared, owned, used, or retained by a state or local agency regardless of the physical form or character. ALL, OR MOST (there are exceptions), OF THE INFORMATION CONTAINED IN YOUR RESPONSE TO THE STATE'S SOLICITATION WILL BE A PUBLIC RECORD SUBJECT TO DISCLOSURE UNDER THE PUBLIC RECORDS LAW.

WORKERS COMPENSATION INSURANCE

All persons working for the State under any contract of hire, expressed or implied, must be covered by worker's compensation insurance. (Reference Title 72, Idaho Code). Contact the Idaho Industrial Commission with any Worker's Compensation questions.

Any contractor who hires employees to accomplish the contracted work must provide a certificate of worker's compensation insurance.

PREFERENCES

Section 67-2349, Idaho Code, requires application of a preference in determining which contractor submitted the lowest responsible bid. If the contractor who submitted the lowest bid is domiciled in a state which has a preference law that penalizes Idaho domiciled contractors, then the State must apply a preference. The penalty applied to out-of-state contractors competing against Idaho contractors is determined by the penalty applied by the contractor's domiciliary state to its out-of-state contractors.

In determining domicile, the following "rule of thumb" will be used: Corporations – the state in which the corporation is chartered or incorporated; Sole proprietor or partnership – the state in which the permanent headquarters of the business is located.

A contractor domiciled outside the boundaries of the state of Idaho may be considered as an Idaho domiciled contractor provided that there exists for a period of one year preceding the date of the bid a significant Idaho economic presence as defined herein. A significant Idaho economic presence shall consist of the following: (a) That the contractor maintains in Idaho fully staffed offices, or fully staffed sales offices or divisions, or fully staffed sales outlets, or manufacturing facilities, or warehouses or other necessary related property; and (b) if a corporation, that it be registered and licensed to do business in the state of Idaho with the Office of the Secretary of State.

REJECTION OF BIDS AND CANCELLATION OF BID SOLICITATION

Prior to the issuance of a contract, the State shall have the right to accept or reject all or any part of a bid when: (i) it is in the best interests of the State of Idaho; (ii) the bid does not meet the minimum bid specifications; (iii) the bid is not the lowest responsible bid; (iv) a finding is made based upon available evidence that a respondent is not responsible or is otherwise incapable of meeting specifications or providing an assurance of ability to

fulfill contract requirements; or (v) the item offered deviates to a major degree from the bid specifications, as determined by the State (minor deviations, as determined by the State, may be accepted as substantially meeting the bid requirements of the State of Idaho). Deviations will be considered major when such deviations appear to frustrate the competitive solicitation process or provide a respondent an unfair advantage. Prior to the issuance of a contract, the State shall have the right to reject all bids or to cancel a solicitation or request for bids. Cancellation may be for reasons that include but are not limited to: (i) inadequate or ambiguous specifications; (ii) specifications have been revised; (iii) property is no longer required; (iv) there is a change in requirements; (v) all bids are deemed unreasonable or sufficient funds are not available; (vi) bids were not independently arrived at or were submitted in bad faith; (vii) it is determined that all requirements of the solicitation process were not met; (viii) insufficient competition; or (ix) it is in the best interests of the state of Idaho. Pursuant to IDL Procurement Policy No. 455, the right is reserved to engage in negotiations.

AWARD PROCEDURES

For contracts with a total value of \$100,000 or less, the State will email all respondents within five (5) business days following the solicitation closure of its intent to award a contract(s) and the party(ies) to whom the contract(s) will be awarded and will then email a contract award to the successful respondent(s).

For contracts with a total value of more than \$100,000, the State will notify all respondents within five (5) business days following the solicitation closure, by mail and/or email, of its intent to award a contract and the party(ies) to whom the contract will be awarded. After elapse of the five (5) day appeal period, if no appeals are received, the State will award a contract to the successful respondent(s).

Respondents to whom a contract has been awarded will have fourteen (14) calendar days from the mailing date of the award notice to return to the State a signed copy of the contract along with the required bonding and certificates of insurance. If the State does not receive such documents within the specified time period, the State may declare, at its sole discretion, that all respondent's rights to the contract are forfeited, and the State may proceed without further delay or notice to award the contract to the next low respondent.

Contractor must furnish all Material Safety Data Sheets (MSDS) for any regulated chemicals, equipment or hazardous materials at the time of delivery.

21. USE OF THE STATE OF IDAHO NAME

Contractor agrees that it will not, prior to, in the course of, or after performance under this contract, use the State's name in any advertising or promotional media as a customer or client of Contractor without the prior written consent of the State.

22. OWNERSHIP

All information furnished to the Contractor for its use pursuant to this Contract shall belong to the State and shall be returned to the State in good order upon completion of the Contract or upon the State's request. All documents, reports, and any other data developed by the Contractor for the State in the performance of this Contract shall become the property of the IDL. The State shall retain exclusive rights of ownership to all work produced by the Contractor under this Contract.

23. APPROPRIATION BY LEGISLATURE REQUIRED

It is understood and agreed that the State is a government entity and this Contract shall in no way or manner be construed so as to bind or obligate the State beyond the term of any particular appropriation of funds by the State's Legislature as may exist from time to time. The State reserves the right to terminate this contract in whole or in part (or any order placed under it) if, in its judgment, the Legislature of the state of Idaho fails, neglects, or refuses to appropriate sufficient funds as may be required for the State to continue such payments. All affected future rights and liabilities of the parties hereto shall thereupon cease within ten (10) calendar days after notice to the Contractor. It is understood and agreed that the State's payments herein provided for shall be paid from Idaho State Legislative appropriations and, in some instances, direct federal funding.

24. FORCE MAJEURE

Neither party shall be liable or deemed to be in default for any Force Majeure delay in shipment or performance occasioned by unforeseeable causes beyond the control and without the fault or negligence of the parties, including, but not restricted to, acts of God or the public enemy, fires, floods, epidemics, quarantine, restrictions, strikes, freight embargoes, unusually severe weather, provided that in all cases the Contractor shall notify the State promptly in writing of any cause for delay and the State concurs that the delay was beyond the control and without the fault or negligence of the Contractor. If reasonably possible, the Contractor shall make every reasonable effort to complete performance as soon as possible.

25. ENTIRE AGREEMENT

This Contract, with the State's Invitation to Bid, Request for Proposal or Request for Quotation, including any addenda (such deemed incorporated by reference) and the vendor's response, to the extent it is not in conflict with the specifications or the States terms and conditions (such document deemed incorporated by reference), constitute the entire agreement between the parties with respect to the subject matter hereof and shall supersede all previous proposals or quotations, both oral and written, discussions, representations, commitments, and all other communications between the parties. Where terms and conditions specified in the State's documents or the Contractor's response differ from those specifically stated in this Contract, the terms and conditions of this Contract shall apply.

26. CONTRACT TERMINATION

a. TERMINATION FOR CAUSE WITH NOTICE:

1. The occurrence of any of the following events shall be an Event of Default under this Contract:
 - a. A material breach of any term or condition of this Contract; or
 - b. Any representation or warranty by Contractor in response to the Solicitation or in this Contract proves to be untrue or materially misleading; or
 - c. Institution of proceedings under any bankruptcy, insolvency, reorganization or similar law, by or against Contractor, or the appointment of a receiver or similar

officer for Contractor or any of its property, which is not vacated or fully stayed within thirty (30) calendar days after the institution or occurrence thereof; or

d. Any default specified in another section of this Contract.

2. The State may terminate the Contract (or any order issued pursuant to the Contract) when the Contractor has been provided written notice of default or non-compliance and has failed to cure the default or non-compliance within a reasonable time, not to exceed thirty (30) calendar days. If the Contract is terminated for default or non-compliance, the Contractor will be responsible for any costs resulting from State's placement of a new Contract and any damages incurred by the State, as a result of the default. The State, upon termination for default or non-compliance, reserves the right to take any legal action it may deem necessary including, without limitation, offset of damages against payment due.

3. Upon written notice of default, Contractor shall be in breach of its obligations under this Contract and the State shall have the right to exercise any or all of the following remedies:

- a. Exercise any remedy provided by law or equity;
- b. Terminate this Contract and any related Contracts or portions thereof;
- c. Impose liquidated damages as provided in this Contract;
- d. Suspend Contractor from receiving future bid solicitations;
- e. Suspend Contractor's performance;
- f. Withhold payment until the default is remedied.

b. TERMINATION FOR CAUSE WITHOUT NOTICE

The State shall not be required to provide advance written notice or a cure period and may immediately terminate this Contract in whole or in part for an Event of Default if the State, in its sole discretion, determines that it is reasonably necessary to preserve public safety or prevent immediate public crisis. Time allowed for cure shall not diminish or eliminate Contractor's liability for damages, including liquidated damages to the extent provided for under this Contract.

c. TERMINATION FOR CONVENIENCE

- i. The State may terminate this Contract for its convenience in whole or in part, if the State determines it is in the State's best interest to do so.
- ii. After receipt of a notice of termination for convenience, and except as directed by the State, the Contractor shall immediately proceed with the following obligations, as applicable, regardless of any delay in determining or adjusting any amounts due under this clause. The Contractor shall:
 - a. Stop work.
 - b. Place no further subcontracts for materials, services, or facilities, except as necessary to complete the continuing portion of the Contract.
 - c. Terminate all subcontracts to the extent they relate to the work terminated.

- d. Settle all outstanding liabilities and termination settlement proposals arising from the termination of subcontracts.
- iii. Unless otherwise set forth in the Solicitation, if the Contractor and the State fail to agree on the amount to be paid because of the termination for convenience, the State will pay the Contractor the following amounts; provided that in no event will total payments exceed the amount payable to the Contractor if the Contract had been fully performed:
 - a. The Contract price for Deliverables or services accepted by the State and not previously paid for; and
 - b. The total of:
 - i. The reasonable costs incurred in the performance of the work terminated, including initial costs and preparatory expenses allocable thereto, but excluding any cost attributable to Deliverables or services paid or to be paid;
 - ii. The reasonable cost of settling and paying termination settlement proposals under terminated subcontracts that are properly chargeable to the terminated portion of the Contract; and
 - iii. Reasonable storage, transportation, demobilization, unamortized overhead and capital costs, and other costs reasonably incurred by the Contractor in winding down and terminating its work.
- iv. The Contractor will use generally accepted accounting principles, or accounting principles otherwise agreed to in writing by the parties, and sound business practices in determining all costs claimed, agreed to, or determined under this clause.

d. TERMINATION FOR FISCAL NECESSITY

The State is a government entity and it is understood and agreed that the State's payments herein provided for shall be paid from Idaho State Legislative appropriations. The Legislature is under no legal obligation to make appropriations to fulfill this Contract. This Contract shall in no way or manner be construed so as to bind or obligate the State beyond the term of any particular appropriation of funds by the State's Legislature as may exist from time to time. The State reserves the right to terminate this Contract in whole or in part (or any order placed under it) if, in its sole judgment, the Legislature of the State of Idaho fails, neglects, or refuses to appropriate sufficient funds as may be required for the State to continue such payments, or requires any return or "give-back" of funds required for the State to continue payments, or if the Executive Branch mandates any cuts or holdbacks in spending, or if funds are not budgeted or otherwise available, or if the State discontinues or makes a material alteration of the program under which funds were provided. The State shall not be required to transfer funds between accounts in the event that funds are reduced or unavailable. All affected future rights and liabilities of the parties shall thereupon cease within ten (10) calendar days after notice to the Contractor. Further, in the event of non-appropriation, the State shall not be liable for any penalty, expense, or liability, or for general, special, incidental, consequential or other damages resulting therefrom.

27. PERFORMANCE OF THE CONTRACTOR

Failure of the Contractor to commence operations as mutually agreed upon by the Contractor and the State, to maintain the required production rate, to complete operations as prescribed herein, or failure to meet other terms of the contract, shall give the State the right to terminate the Contract. Such termination shall not affect any rights of the State for recovery of damages from any payment for services due Contractor hereinbefore provided for in any action at law or in equity.

28. MODIFICATION

This Contract may not be released, discharged, changed or modified except by an instrument in writing signed by a duly authorized representative of each of the parties.

29. PUBLIC RECORDS

Pursuant to Idaho Code Section 74-101 through 74-126, information or documents received from the Contractor may be open to public inspection and copying unless exempt from disclosure. The Contractor shall clearly designate individual documents as "exempt" on each page of such documents and shall indicate the basis for such exemption. The State will not accept the marking of an entire document as exempt. In addition, the State will not accept a legend or statement on one (1) page that all, or substantially all, of the document is exempt from disclosure. The Contractor shall indemnify and defend the State against all liability, claims, damages, losses, expenses, actions, attorney fees and suits whatsoever for honoring such a designation or for the Contractor's failure to designate individual documents as exempt. The Contractor's failure to designate as exempt any document or portion of a document that is released by the State shall constitute a complete waiver of any and all claims for damages caused by any such release. If the State receives a request for materials claimed exempt by the Contractor, the Contractor shall provide the legal defense for such claim.

30. CONFIDENTIAL INFORMATION:

Pursuant to this Contract, Contractor may collect, or the State may disclose to Contractor, financial, personnel or other information that the State regards as proprietary, confidential or exempt from disclosure ("Confidential Information"). Confidential Information shall belong solely to the State. Contractor shall use such Confidential Information only in the performance of its services under this Contract and shall not disclose any Confidential Information to any third party, except with the State's prior written consent or under a valid order of a court or governmental agency of competent jurisdiction, and then only upon timely notice to the State. The State may require that Contractor's officers, employees, agents or subcontractors separately agree in writing to the obligations contained in this section or sign a separate confidentiality agreement. Confidential Information shall be returned to the State upon termination of this Contract. The confidentiality obligation contained in this section shall survive termination of this Contract. Confidential Information shall not include data or information that:

- a. Is or was in the possession of Contractor before being furnished by the State, provided that such information or other data is not known by Contractor to be subject to another confidentiality agreement with or other obligation of confidentiality to the State;
- b. Becomes generally available to the public other than as a result of disclosure by Contractor; or
- c. Becomes available to Contractor on a non-confidential basis from a source other than the State, provided that such source is not known by Contractor to be subject to a confidentiality

agreement with or other obligation of confidentiality to the State.

31. NON-WAIVER

The failure of any party, at any time, to enforce a provision of this Contract shall in no way constitute a waiver of that provision, nor in any way affect the validity of this Contract, any part hereof, or the right of such party thereafter to enforce each and every provision hereof.

32. NO WAIVER OF SOVEREIGN IMMUNITY

In no event shall this Contract or any act by the State, be a waiver of any form of defense or immunity, whether sovereign immunity, governmental immunity, immunity based on the Eleventh Amendment to the Constitution of the United States or otherwise, from any claim or from the jurisdiction of any court. If a claim must be brought in a federal forum, then it must be brought and adjudicated solely and exclusively within the United States District Court for IDL. This section applies to a claim brought against the State only to the extent Congress has appropriately abrogated the State's sovereign immunity and is not consent by the State to be sued in federal court, or a waiver of any form of immunity, including but not limited to sovereign immunity and immunity based on the Eleventh Amendment to the Constitution of the United States.

33. ATTORNEYS' FEES

In the event suit is brought or an attorney is retained by any party to this Contract to enforce the terms of this Contract or to collect any moneys due hereunder, the prevailing party shall be entitled to recover reimbursement for reasonable attorneys' fees, court costs, costs of investigation and other related expenses incurred in connection therewith in addition to any other available remedies.

34. TRASH CLEANUP

The Contractor shall be responsible for picking up and properly disposing of all trash generated as a result of this Contract at the end of each day. This includes any camps made by Contractor personnel. Cleanup shall be done to the satisfaction of the COR and shall not affect any rights of the State or Forest Service for the recovery of costs of the cleanup.

35. CAMPING ON NATIONAL FOREST OR STATE LAND

Contractor personnel may, with written approval from the State, camp during the Contract period on National Forest or State land. Such camping will be at the Contractor's own risk. Any camps will be made according to conditions set forth by the IDL and the United States Forest Service and be in compliance with State Land Board and Federal rules and regulations for fire prevention.

The Contractor shall request a camping permit from the COR for each area in which the Contractor's crew plan on camping within the National Forest or State Lands boundary. Provisions that apply to all camping on National Forest and State lands will be discussed in detail at the pre-work conference.

36. FIRE PREVENTION RESPONSIBILITIES

- a. The Contractor will adhere to the State Land Board and Federal rules and regulations which set forth fire prevention safety precautions for woods operations. Such rules and regulations are available at any IDL or United States Forest Service office. These rules and regulations will be outlined during the pre-work conference with the Contractor.
- b. The Contractor shall not build any open fires at any time of the year on the contract area without first obtaining written permission from the State.
- c. Fire spreading through the Contract area, which is a result of the Contractor's operation or

employees' actions, shall be the liability of the Contractor.

37. GOVERNMENT REGULATIONS

The Contractor shall abide by and comply with all laws and regulations of the United States, the State of Idaho including the Forest Practices Act (Title 38, Chapters 1 and 13, Idaho Code), counties or other governmental jurisdictions wherein the work is executed insofar as they affect this contract. The Contractor will make all payments, contributions, remittances, and all reports and statements required under said laws.

Contractor guarantees that all items meet or exceed those requirements and guidelines established by the Occupational Safety and Health Act, Consumer Product Safety Council, Environmental Protection Agency, or other regulatory agencies.

PROJECT DESCRIPTION

Post-Fire Drone Regeneration Survey

SUPERVISORY AREA: North Fork and Salmon-Cobalt Ranger Districts, Salmon-Challis National Forest

PROJECT NAME: Post-Fire Drone Regeneration Survey

PROJECT NUMBER: 24-202-131002

PROJECT ACRES: 20,622 Acres (Mustang Fire: 20,065 acres; Salt Fire: 557 acres)

PROJECT LOCATION:

The project area is located within Lemhi County on the North Fork and Salmon-Cobalt Ranger Districts of the Salmon-Challis National Forest. The project area is very remote with some units greater than 1 mile from a road. The project area is generally accessible from June to September. Please see attached map(s) for location.

AREA HISTORY:

The Salt Fire burned in 2011 and the Mustang Complex burned in 2012. In 2023 RAVG Data was used to determine which portions of stands burned at high severity and need to be reforested. These stands were broken into individual units for survey. Stocking surveys are needed to determine which units have naturally regenerated with conifer seedlings and which units or portions of units are understocked.

ACCESS:

All access points to the project area are under United States Forest Service jurisdiction. Units are accessed by rocky main haul and secondary native surface roads. Chainsaws are often needed to cut fallen trees out of the road to access many areas of the forest. Only open roads can be used for motor vehicle access, see the Salmon-Challis National Forest Motor Vehicle Use Map.

WORK TO BE PERFORMED:

Furnish all labor and equipment to perform work included in this project. The intent is to utilize Unmanned Aircraft Systems (UAS), also known as “drone” to collect stand-level data to determine post-fire stocking of identified units. Contractor will also be responsible for processing drone imagery, calculating inventory metrics, and generating analytical comparisons to inventory. Contractor shall also provide quality control efforts, through qualified crew supervision, to ensure work is meeting project descriptions.

Determine the following for each unit:

- Unit Summary: Live Trees Per Acre (TPA) for seedlings >1’ tall (if possible, broken down by species)
- Within Unit spatial indication of the following stocking levels (per acre):
 - Low Stocking: <50 TPA
 - Moderate Stocking: 50-100 TPA
 - Well Stocked: >100 TPA
- Identify contiguous portions of units ≥10 acres with low stocking (<50 TPA)
 - Areas of low stocking ≥10 acres broken out in separate Feature Class / Shapefile

OTHER REQUIREMENTS:

- Contractor will conduct ground truthing and provide data to USFS Contractor Officer Representative (COR). Ground truthing procedures will be proposed by the Contractor and agreed upon by the IDL Contracting Officer's Representatives for the Project.
- Contractor will strive to conduct their work safely and mitigate safety hazards to the extent possible.
- Contractor will minimize impacts to forest users by not flying a unit when it is occupied by forest users. Popular big game hunting seasons begin August 30th and the area becomes more populated with hunters as opening day approaches.
- Contractor will not use any motorized vehicle including any unmanned aircraft system (drone), to molest, stir up, rally or drive in any manner any game animal or game bird.
- Contractor will certify that all drone pilots are fully trained and properly licensed..
- Contractor will limit drone flights to the airspace immediately above USFS property or obtain written permission from adjacent land owners before flying over or otherwise using their land.
- Contractor will immediately report to USFS COR any complaints received from adjacent landowners, law enforcement, or the public.
- Contractor must operate in compliance with all applicable Federal and State regulations for UAS operations, including any Temporary Flight Restrictions (TFR's) due to wildfire activity.
- Contractor will notify IDL and USFS CORs of dates they plan to fly, in order to notify the public and fire dispatch.
- Contractor will have a VHF radio to deconflict airspace with other aircraft (such as in the event of a fire).

DELIVERABLES:

Contractor shall provide the following items to the USFS COR:

- Georeferenced PDF for each unit completed (with imagery resulting from drone flights). Within-unit spatial indication of acres of adequate and inadequate stocking will be included.
- Geodatabase with a Feature Classes including stocking inventory data (TPA) for all units completed. Within-unit spatial indication of acres of adequate and inadequate stocking will be included. (compatible with ArcGIS Pro, formatted for WGS 1984 Web Mercator Auxiliary Sphere)
 - Understocked areas ≥10 acres broken out in separate Feature Class / Shapefile
- Excel Sheet summarizing TPA data for live trees per acre for each unit completed
- Ground Truthing Data: Unit-level quantitative comparison of drone-based inventory data versus ground-based validation (as proposed by the Contractor and agreed to by IDL and USFS CORs)

INSPECTION AND ACCEPTANCE:

Assessment of the data will be conducted by the Project COR's. Support of the Contractor should be made available during the data review process. Any issues identified by the COR must be rectified within 10 working days of notification by the COR. The IDL COR will inform the Contractor when deliverables have been accepted as final.

CONTRACT PERIOD AND SCHEDULE:

Contract work may commence after the Contractor receives a Notice to Proceed and has had a prework conference with the USFS and IDL COR. All field work must be completed by **August 30, 2024**, and in compliance with all Contract terms, clauses, and special provisions. All contract deliverables must be submitted to the IDL COR by December 31, 2024.

CONTRACT ADMINISTRATION:

IDL and Forest Service will each have a Contracting Officer Representative (COR) available for this project. The COR will administer the contract as required in all specifications. Disputes between the

IDL and FS COR will be resolved by the IDL Contracting Officer, Drew Evans (aevans@idl.idaho.gov).

The COR for IDL for this contract will be Chase Bolyard (cbolyard@idl.idaho.gov or 208-916-0897). The COR has the following authority in addition to that delegated in other portions of the contract:

- Resolve disputes between the FS COR, and the Contractor.
- Decide questions of fact arising regarding quality and acceptability of equipment to be used, materials furnished, and all work performed.
- Process invoices for payment.

The Forest Service COR for this contract will be Will Bedient (william.bedient@usda.gov or 208-756-7830). The COR has the following authority in addition to that delegated in other portions of the contract:

- Decide questions of fact in regards to quality and acceptability of work performed.
- Make recommendations to IDL for invoice payment.

COR's have the option to select a Project Inspector to perform field inspections and make recommendations on quality of work to the COR. If an Inspector is chosen for this project, their information will be provided to the Contractor.

CONTRACT PAYMENT:

Invoices must be sent to GNAInvoice@idl.idaho.gov. Invoices that are not sent to this address may be delayed in processing and payment. Invoices must include the Contract Number and a unique invoice number to prevent delays in processing.

Payment will be made to the Contractor upon satisfactory completion of all fieldwork at the rates set forth in Schedule A. Invoices must be itemized per the attached Schedule A; payment will be made after receipt of the contractor's itemized invoice for satisfactorily completed work. Invoices shall be submitted no more than monthly and will include a description of services completed during the period being invoiced.

INFORMATION:

Contact information will be provided in final contract.
