### Summary of previous meeting provided

Mike Murphy provided a summary of the previous meeting for the benefit of Peter Bauman who did not attend. Mike Murphy walked through the proposed language section, by section, identifying the nature of the changes, almost all of which related to wordsmithing and rearranging of sections within the Rule for clarity sake.

No additional concerns, comments or issues warranting follow-up were identified during this meeting.

Mike Murphy conveyed to Scott Nichols that IDL will follow-up on his comments from the first meeting and that the corresponding edits will be made unless restricted by the statute (e.g. low temperature and the definition of Geothermal Resources).
