Dear Idaho Department of Lands, Comments,

The calm, cool water and wild landscape of the unique ecosystem at Trestle Creek is currently teeming with life. Fish and wildlife are abundant, including eagles, beaver and threatened bull trout. This type of intricate shoreline and quiet refuge is uncommon on Lake Pend Oreille, as the shoreline is typically steep and deep without a lot of variation that offers critical safety zones for animals and fish. It's in the public's best interest to maintain this unique and diverse ecosystem, rather than seeing it destroyed for the financial benefit of a few. I'm writing to ask that you please deny the application for a commercial marina at Trestle Creek - application #L-96-S-2798A.

Regards,
Bruce Oliver

Dear Idaho Department of Lands, Comments,

The calm, cool water and wild landscape of the unique ecosystem at Trestle Creek has always been teeming with life, and today it is no different. Fish and wildlife are abundant, including eagles by the dozen, beavers (the environmental engineers of the animal world), and threatened bull trout. This type of intricate shoreline and quiet refuge is uncommon on Lake Pend Oreille, as the shoreline is typically steep and deep without a lot of variation that offers critical safety zones for animals and fish. It's in the public's best interest to maintain this unique and diverse ecosystem, rather than seeing it destroyed for the financial benefit of a few, there are countless other areas around Lake Pend Oreille for million dollar homes, commercial marinas, and residential development. I grew up on Lake Pend Oreille, and the wildlife in and around Trestle Creek are a priceless Idaho treasure. I'm writing to ask that you please deny the application for a commercial marina at Trestle Creek - application #L-96-S-2798A.

This type of intricate shoreline and quiet refuge is uncommon on Lake Pend Oreille, as the shoreline is typically steep and deep without a lot of variation that offers critical safety zones for animals and fish. It's in the public's best interest to maintain this unique and diverse ecosystem, rather than seeing it destroyed for the financial benefit of a few. I'm writing to ask that you please deny the application for a commercial marina at Trestle Creek - application #L-96-S-2798A.

Regards,
Cynthia Rowe

Dear Idaho Department of Lands, Comments,

The calm, cool water and wild landscape of the unique ecosystem at Trestle Creek is currently teeming with life. Fish and wildlife are abundant, including eagles, beaver and threatened bull trout. This type of intricate shoreline and quiet refuge is uncommon on Lake Pend Oreille, as the shoreline is typically steep and deep without a lot of variation that offers critical safety zones for animals and fish. It's in the public's best interest to maintain this unique and diverse ecosystem, rather than seeing it destroyed for the financial benefit of a few. I'm writing to ask that you please deny the application for a commercial marina at Trestle Creek - application #L-96-S-2798A.
