Dear Idaho Department of Lands, Comments,

For the love of all that is holy, STOP allowing these bored rich yuppies to tear up everything we value and hold dear just so they can have more places to sit and drink their wine! Trestle Creek is home to spawning Kokanee and bald eagles, we go there to mushroom hunt and escape the tourists during peak summer season.

We cannot continue to sell Idaho off to whoever has the most money. We have to save her soul! Please!! Please deny the application for a commercial marina at Trestle Creek - application #L-96-S-2798A. PERMANENTLY.

Regards,
Lydia Tollbom

Dear Idaho Department of Lands, Comments,

The calm, cool water and wild landscape of the unique ecosystem at Trestle Creek is currently teeming with life. Fish and wildlife are abundant, including eagles, beaver and threatened bull trout. This type of intricate shoreline and quiet refuge is uncommon on Lake Pend Oreille, as the shoreline is typically steep and deep without a lot of variation that offers critical safety zones for animals and fish. It's in the public's best interest to maintain this unique and diverse ecosystem, rather than seeing it destroyed for the financial benefit of a few. I'm writing to ask that you please deny the application for a commercial marina at Trestle Creek - application #L-96-S-2798A.

Regards,

Dear Idaho Department of Lands, Comments,

The calm, cool water and wild landscape of the unique ecosystem at Trestle Creek is currently teeming with life. Fish and wildlife are abundant, including eagles, beaver and threatened bull trout. This type of intricate shoreline and quiet refuge is uncommon on Lake Pend Oreille, as the shoreline is typically steep and deep without a lot of variation that offers critical safety zones for animals and fish. It's in the public's best interest to maintain this unique and diverse ecosystem, rather than seeing it destroyed for the financial benefit of a few. I'm writing to ask that you please deny the application for a commercial marina at Trestle Creek - application #L-96-S-2798A.

Regards,
Lisa Baldwin

Dear Idaho Department of Lands, Comments,

For the love of all that is holy, STOP allowing these bored rich yuppies to tear up everything we value and hold dear just so they can have more places to sit and drink their wine!

Trestle Creek is home to spawning Kokanee and bald eagles, we go there to mushroom hunt and escape the tourists during peak summer season.

We cannot continue to sell Idaho off to whoever has the most money. We have to save her soul! Please!! Please deny the application for a commercial marina at Trestle Creek - application #L-96-S-2798A. PERMANENTLY.

Regards,

Dear Idaho Department of Lands, Comments,

I am personally familiar with Trestle Creek and the north end of Lake Pend O'reille and recognize that this is NOT an appropriate site for construction and development of the level proposed by the Idaho Club. Trestle Creek is THE priority spawning waters for protected Bull Trout, as well as kokonee, the primary food source for all trout populations in Lake Pend O'reille. The Idaho Club continues to show no considerations to the protection of Trestle Creek. Please DO NOT approve their application for development!
