Subject: Stop the unnecessary commercial marina at Trestle Creek

Dear Idaho Department of Lands, Comments,

I'm concerned about the proposed commercial marina at Trestle Creek - application #L-96-S-2798A. The marina would welcome hoards of new boat traffic, bringing noise, garbage, and the potential for oil and gas leaks to this tranquil and unique habitat. According to Idaho's Lakes Protection Act, commercial marina moorage for use by the general public may not require membership in a club or organization. It is unclear why the Idaho Club would want to develop a marina and not give preference to their owners and members. There is no assurance that they will not. The developer claims that "boat slips and waterfront lots on Lake Pend Oreille are in high demand, with a deficit of availability to current demand." No evidence is offered to support this claim. This marina is not in the public interest; please do not allow it to be permitted!

Regards,
ACACIA DIGIULIO
927 Sitting Bull Rd Rd
Sandpoint, ID 83864

Subject: Stop the unnecessary commercial marina at Trestle Creek

Dear Idaho Department of Lands, Comments,

I'm concerned about the proposed commercial marina at Trestle Creek - application #L-96-S-2798A. The marina would welcome hoards of new boat traffic, bringing noise, garbage, and the potential for oil and gas leaks to this tranquil and unique habitat. According to Idaho's Lakes Protection Act, commercial marina moorage for use by the general public may not require membership in a club or organization. It is unclear why the Idaho Club would want to develop a marina and not give preference to their owners and members. There is no assurance that they will not. The developer claims that "boat slips and waterfront lots on Lake Pend Oreille are in high demand, with a deficit of availability to current demand." No evidence is offered to support this claim. This marina is not in the public interest; please do not allow it to be permitted! In addition, Trestle Creek is home to federally threatened Bull Trout, and their spawning migration corridor would be negatively impacted. Bull Trout tend to stage at the mouth of the creek before making the migration which would leave them vulnerable to more angling/ marina construction / human waste.

Dear Idaho Department of Lands, Comments,

I'm concerned about the proposed commercial marina at Trestle Creek - application #L-96-S-2798A. The marina would generate new boat traffic, bringing noise, garbage, and the potential for oil and gas leaks to this tranquil and unique habitat.

According to Idaho's Lakes Protection Act, commercial marina moorage for use by the general public may not require membership in a club or organization. There is no assurance the Idaho Club would develop the marina and not give preference to their owners and members.

The developer claims that "boat slips and waterfront lots on Lake Pend Oreille are in high demand, with a deficit of availability to current demand." No evidence is offered to support this claim.

This marina is not in the public interest and certainly not in the interest of the Kokanee and endangered Bull Trout.

Please do not allow it to be permitted!

Subject: Stop the unnecessary commercial marina at Trestle Creek

Dear Idaho Department of Lands, Comments,

I'm concerned about the proposed commercial marina at Trestle Creek - application #L-96-S-2798A. The marina would welcome hoards of new boat traffic, bringing noise, garbage, and the potential for oil and gas leaks to this tranquil and unique habitat. According to Idaho's Lakes Protection Act, commercial marina moorage for use by the general public may not require membership in a club or organization. It is unclear why the Idaho Club would want to develop a marina and not give preference to their owners and members. There is no assurance that they will not. The developer claims that "boat slips and waterfront lots on Lake Pend Oreille are in high demand, with a deficit of availability to current demand." No evidence is offered to support this claim. This marina and any and all subsequent physical actions regarding changing or developing this pristine creature habitat is not in the public interest; please do not allow it to be permitted!

Regards,
Brandy Chicks

Dear Idaho Department of Lands, Comments,

Below are not my words, however they do say (in better words) what I feel. Living here 50 plus years, visiting Trestle Creek and knowing the importance of the natural surroundings for our endangered fish, I am strongly opposed to this development at the mouth of this vital creek. Please add my name to the list of citizens who wish to protect the shoreline and fish habitat at Trestle Creek. Thank you.
