Please add this to the StanCraft PH-2024-Nav-22-002

The hearing officer knows that this was coming in.

Thanks,

**Amidy Fuson**

Dear Amidy,

I am forwarding the pictures I have taken over the summer showing the activities of Stancraft as requested by the hearing examiner. I am a resident of 1750 W Blackwell Mill Road and my husband and I share the gravel driveway with the property next door that we maintain as it is our only entrance to our property.(some people are calling it a road) They were not always courteous driving around, parking large trucks or concerned about their speed. They drove into the lake with large equipment, disturbing the lake shore and chasing away the wildlife, such as the otter that always swam back and forth under our docks, the osprey could not fish and moved away from their nest. The deer and moose have, only this past week, made a presence here. We finally saw a blue heron about mid-October, way later in the season than normal. I hope you can see what they have been doing that I could see.

Thank you,

Sandra
