"It's going to do a lot of work for them," Finney said.

Zach Johnson, general manager of StanCraft Marine Construction, was pleased as he recorded the minutes of the barge slowly being rolled downhill and into the Spokane River on what he called "launch day."

"It's awesome," he said. "Not many people get to see that."

The barge and other assets came to StanCraft Companies when it purchased North Idaho Maritime, established in 1918, in November 2022.

"Our goal is to continue to advance current service, introduce new products and industry advancements, while expanding on environmentally friendly solutions," owner Robb Bloem said at the time.

Aaron Goodrich, Finney Boat Works shop foreman, said the barge was in rough shape when they brought it ashore last fall. It took several days to drain about 50,000 pounds of water and gunk from the hull.

They repaired, replaced, welded, sanded, painted, updated and upgraded the barge. They put in new hatches, braces, cleats and decking.

The word "Buffalo" on the side of the barge pays tribute to the University of Colorado, Bloem's alma mater.

"The bow had a lot of wear and tear on the front, so we armor-plated it," Goodrich said.

And now?

"It's like a brand-new barge," he said. "Any issue there was addressed."

He took pride in the barge's long history on Lake Coeur d'Alene.

"A lot of hands have touched it," Goodrich said.

The project brought together two of the area's longtime water-related businesses, Finney Boat Works, led by Fred Finney, and StanCraft, led by Robb Bloem.

StanCraft Wooden Boat Company was founded in 1933 at Flathead Lake in Lakeside, Mont., by Amy Bloem's grandfather, W.H. "Billy" Young, and his son, Stanley C. Young. Operations began in Hayden in 2003, when Robb and wife Amy moved back to Idaho after being away for 12 years. It expanded in 2018 with StanCraft Jet Center at the Coeur d'Alene Airport.

A tug will pull the barge to Wolf Lodge Bay, where a 100-ton crane will be added. Johnson said it will be the largest barge on the lake, with the largest crane, too.

The renovated barge will be central to StanCraft Marine Construction's operations, which include

other, smaller barges. Its crane and barge services include pile driving, anchor setting, bank stabilization, equipment and material transportation, recovery and dredging.

"It's the main infrastructure of the barge business," Johnson said.

A few pinhole leaks were found during the inspection as the barge floated on a sunny Wednesday morning, which isn't unusual with a project of this scope, so Finney said it would be pulled back to land for a few repairs that should take about a day.

"We want it to be bone dry," he said.

The \$1 million renovation was well worth it, Johnson said.

"We're putting history back on to the lake," he said.

Zach Johnson, general manager of StanCraft Marine Construction, records their renovated barge returning to the water on Wednesday.

Fred Finney of Finney Boat Works walks on the dock to inspect the barge as it returns to North Idaho waters on Wednesday.

Walle, a StanCraft Marine Construction tug, noses up to a barge on Wednesday on the Spokane River at Finney Boat Works.

ENCROACHMENT PERMIT NO. L95S5648B

Permission is hereby granted to Ross Schlotthauer of 6980 E Maplewood Ave, Post Falls, ID, 83854, United States (USA) to install and maintain the following encroachment(s) subject to the terms and conditions of this Permit and the approved application, plans and drawings incorporated herein:

Encroachment	Description	Effective Date	Construction to be completed by
Encroachment: Rip Rap	85 Feet	08/02/2021	08/02/2021
Encroachment: Single Family Dock	3' x 45' pier, a 3' x 20' ramp, a 4'x16' approach, and a 24'x32' single-slip floating dock w/ four pilings per attached approved design plan.	655 Square Feet	

Located on **SPOKANE RIVER** in KOOTENAI COUNTY, adjacent to:

Parcel Number	50N04W080450
Section, Township, Range	T50N R04W, sec 08, Boise Meridian
Physical Addresses	6986 E Maplewood Avenue, Post Falls, ID, 83854, United States (USA)
Tax/Serial Number	AIN 332736 & TX#24624

1. General

- A. In order for this permit to be valid, Permittee must record this permit in the records of the county in which the encroachment is located and furnish proof of recordation to the Department pursuant to Idaho Code §§ 58-1305(h) and -1306(f).
- B. All applicable provisions of the Lake Protection Act (Idaho Code Title 58, Chapter 13) and Rules for Regulation of Beds, Waters, and Airspace over Navigable Lakes and Streams in the State of Idaho (IDAPA 20.03.04.000 *et seq.*) are incorporated herein by reference and made a part hereof.
- C. This permit does not convey the State's title to nor jurisdiction or management of lands lying below the natural or ordinary high water mark.
- D. Construction must follow details and specifications shown on the approved application, plans, and drawings provided by Permittee. Should such information prove to be materially false, incomplete and/or inaccurate, this authorization may be modified, suspended, or revoked in accordance with the Administrative Procedures Act, Idaho Code Title 67, Chapter 52 and IDAPA 20.03.04.080.07. At any time, and prior to any modification to the application, plans, drawings or encroachments Permittee must consult with the Idaho Department of Lands to determine if a new permit is required.
- E. Permittee shall maintain the structure or work authorized herein in a good and safe condition and in accordance with the approved application, plans and drawings. Permittee shall contact the Idaho Department of Lands 10 days prior to the planned start date of any maintenance or replacement activities.
- F. Acceptance of this permit constitutes permission by Permittee for representatives of the Idaho Department of Lands to come upon Permittee's Property at all reasonable times to inspect the encroachment authorized by this permit.
- G. Permittee shall indemnify, defend and save harmless the State, its officers, agents and employees from and against any and all liability, claims, damages, losses, expenses, actions, settlements, attorneys' fees, and suits whatsoever caused by, arising out of, or in connection with Permittee's acts or omissions under this permit or Permittee's failure to comply with any state or federal statute, law, regulation or rule.
- H. Authorization for any activity authorized herein that is not completed on or before the completion date identified above, shall automatically terminate unless an extension was granted in writing by IDL.
- I. This permit supersedes and voids any permit previously issued for this property. Unless specifically authorized in this permit, any pre-existing or abandoned portions of encroachments, whether previously permitted or not, shall be removed from below the ordinary or artificial high water mark.
- J. This permit does not relieve Permittee from obtaining additional approvals or otherwise complying with other local, state, or federal laws.
- K. Idaho State Water Quality Standards (IDAPA 58.01.02.000 *et seq.*) shall be maintained at all times during and after project start up.
- L. This permit is issued contingent upon Permittee's continuing status as an owner or lessee of the littoral right associated with the property described on page 1 of this permit.
- M. Permittee shall not assign this permit without first obtaining the written consent of IDL. Any request for approval of an assignment must be in writing, on forms provided by IDL, and accompanied by the applicable processing fee.
- N. Permittee assumes all liability for damages, which may result from the exercise of this permit.

2. Construction

- A. The Permittee or contractor shall have a copy of this permit available on site for inspection at all times during construction.
- B. Permittee is responsible for all work done by any contractor. Permittee shall provide contractor with a copy of this permit. Permittee shall ensure any contractor who performs the work is informed of and follows all the terms and conditions of this permit.
- C. Construction barges or other watercraft shall not be grounded on the lakebed for any reason.
- D. Permittee, contractor and anyone acting on their behalf are prohibited from allowing equipment, boats, barges or associated machinery to create petroleum product sheen on the water or otherwise create a release of petroleum or petroleum products due to petroleum products handling, use or storage. The contractor shall maintain an adequate supply of petroleum absorbent pads. The Emergency Response Team phone number, 1-800-632-8000, must be readily available at all times.
- E. Operation of excavation equipment will not be allowed below the ordinary or artificial high water mark without prior written authorization from IDL. Equipment may be operated only on dry land above the level of the lake at the time of operation.
- F. Demolition debris and construction waste shall be removed from the lake and disposed of at an approved upland location.
- G. Foam flotation shall be completely encased in a manner that will maintain the structural integrity of the foam. The encasement shall be resistant to the entry of rodents and shall be replaced if cracked, damaged, or similarly compromised.
- H. It is illegal to possess or transport Quagga or Zebra mussels into or through Idaho, and to launch infested watercraft. Used boat lifts shall be inspected for invasive species and determined to be free from such species prior to installation. Permittee shall provide IDL with proof of inspection by an authorized inspector prior to installing the boat lift and/or placing it in the water. Prior to installation call 877-336-8676 for decontamination.
- I. Piles and pylons shall be driven with noise reduction devices.
- J. Construction materials shall be natural or pressure treated utilizing only those preservative chemicals registered for the specific uses by the U.S. Environmental Protection Agency (EPA). All treated wood materials shall be produced in compliance with "Best Management Practices (BMPs) For the Use of Treated Wood in Aquatic and other Sensitive Environments" issued by the Western Wood Preservers Institute (WWPI) 2012. Treated materials not in contact with the water shall be completely dry before use near navigable waters. Use of Chromated Copper Arsenate (CCA) treated wood shall adhere to the EPA recommendations regarding use of arsenate treated wood. Contact Idaho Department of Environmental Quality for information on acceptable treatment methods and materials.
- K. All construction material including maintenance material must be stockpiled landward of the ordinary or artificial high water mark
- L. No trees or vegetation shall be removed below the ordinary high water mark without written approval of the Idaho Department of Lands.
- M. The disturbed portion of the lakebed shall be shaped to its original contour upon completion of the project.
- N. Any vegetation located below the ordinary high water mark disturbed by construction activity shall be replanted with native plants, unless otherwise agreed to in writing by IDL.
- O. All construction shall meet the standards of the Uniform Building and International Fire Codes. Permittee shall contact the appropriate body of jurisdiction concerning these codes prior to installation.

- P. A silt curtain, fence, or other appropriate Best Management Practice (BMP) shall be installed waterward of the project site. It must remain in place and functional until the turbidity level inside the curtain, fence or BMP equals the turbidity outside the curtain, or until all disturbed sediment has been removed from the BMP and stabilized in an upland location.
- Q. If any excavation or pile driving occurs the operator must comply with the provisions of the Underground Facilities Damage Prevention Law (Idaho Code Title 55, Chapter 22). The one-call locator service number is 811.

3. Single-family Docks

- A. Covered slips and lifts must meet the standards established in IDAPA 20.03.04.015.04 and .13.b.

4. Riprap

- A. No riprap shall be placed in excess of the minimum needed for erosion control.
- B. Riprap shall be placed along the present contour of the shoreline.
- C. BMPs must be implemented to prevent sediment or sediment laden water from reentering the lake. BMPs must remain in place until the risk of sediment reentering the lake has been fully mitigated. Sediment mitigation BMPs must be removed prior to or designed to withstand any rise in lake water level which might cause an unplanned release of trapped sediment.
- D. Any excavated material shall be sidecast to only one side of the trench and shall either be replaced in the trench or removed to an area above the ordinary or artificial high water mark and in a position such that it will not reenter the lake.

ON BEHALF OF THE DIRECTOR

By:

Jennifer Barker, Lands Resource Specialist
Public Trust - Mica Office

8/2/2021 Date

STATE OF IDAHO)
) ss
KOOTENAI COUNTY)

On August 02, 2021 personally appeared before me Jennifer Barker, whose identity is personally known to me and who by me duly affirmed that he/she is the Lands Resource Specialist, Public Trust Mica Office of the Idaho Department of Lands, and acknowledged that the foregoing document was signed by him/her on behalf of said state agency by authority of a Resolution of the State Land Board.

Notary Public for Idaho Department of Lands
My commission expires on 8/20/24

JOINT APPLICATION FOR PERMITS

U.S. ARMY CORPS OF ENGINEERS - IDAHO DEPARTMENT OF WATER RESOURCES - IDAHO DEPARTMENT OF LANDS

Authorities: The Department of Army Corps of Engineers (Corps), Idaho Department of Water Resources (IDWR), and Idaho Department of Lands (IDL) established a joint process for activities impacting jurisdictional waterways that require review and/or approval of both the Corps and State of Idaho. Department of Army permits are required by Section 10 of the Rivers & Harbors Act of 1899 for any structure(s) or work in or affecting navigable waters of the United States and by Section 404 of the Clean Water Act for the discharge of dredged or fill materials into waters of the United States, including adjacent wetlands. State permits are required under the State of Idaho, Stream Protection Act (Title 42, Chapter 38, Idaho Code and Lake Protection Act (Section 58, Chapter 13 et seq., Idaho Code). In addition the information will be used to determine compliance with Section 401 of the Clean Water Act by the appropriate State, Tribal or Federal entity.

Joint Application: Information provided on this application will be used in evaluating the proposed activities. Disclosure of requested information is voluntary. Failure to supply the requested information may delay processing and issuance of the appropriate permit or authorization. **Applicant will need to send a completed application, along with one (1) set of legible, black and white (8 1/2"x11"), reproducible drawings that illustrate the location and character of the proposed project / activities to both the Corps and the State of Idaho.**

See Instruction Guide for assistance with Application. Accurate submission of requested information can prevent delays in reviewing and permitting your application. Drawings including vicinity maps, plan-view and section-view drawings must be submitted on 8-1/2 x 11 papers.

Do not start work until you have received all required permits from both the Corps and the State of Idaho

19. TYPE and QUANTITY of MATERIAL(S) to be discharged below the ordinary high water mark and/or wetlands:

Dirt or Topsoil: _____ cubic yards

Dredged Material: _____ cubic yards

Clean Sand: _____ cubic yards

Clay: _____ cubic yards

Gravel, Rock, or Stone: 30 cubic yards

Concrete: _____ cubic yards

Other (describe): _____ : _____ cubic yards

Other (describe): _____ : _____ cubic yards

TOTAL: _____ cubic yards

20. TYPE and QUANTITY of impacts to waters of the United States, including wetlands:

Filling: _____ acres _____ sq ft. _____ cubic yards

Backfill & Bedding: _____ acres _____ sq ft. _____ cubic yards

Land Clearing: _____ acres _____ sq ft. _____ cubic yards

Dredging: _____ acres _____ sq ft. _____ cubic yards

Flooding: _____ acres _____ sq ft. _____ cubic yards

Excavation: _____ acres _____ sq ft. _____ cubic yards

Draining: _____ acres _____ sq ft. _____ cubic yards

Other: _____ : _____ acres _____ sq ft. _____ cubic yards

TOTALS: _____ acres _____ sq ft. _____ cubic yards

21. HAVE ANY WORK ACTIVITIES STARTED ON THIS PROJECT? ☐ NO ☒ YES If yes, describe ALL work that has occurred including dates.

Repairs made in 2017

22. LIST ALL PREVIOUSLY ISSUED PERMIT AUTHORIZATIONS:

L95S5648A

23. ☐ YES, Alteration(s) are located on Public Trust Lands, Administered by Idaho Department of Lands

24. SIZE AND FLOW CAPACITY OF BRIDGE/CULVERT and DRAINAGE AREA SERVED: _____ Square Miles

25. IS PROJECT LOCATED IN A MAPPED FLOODWAY? ☐ NO ☐ YES If yes, contact the floodplain administrator in the local government jurisdiction in which the project is located. A Floodplain Development permit and a No-rise Certification may be required.

26a. WATER QUALITY CERTIFICATION: Pursuant to the Clean Water Act, anyone who wishes to discharge dredge or fill material into the waters of the United States, either on private or public property, must obtain a Section 401 Water Quality Certification (WQC) from the appropriate water quality certifying government entity.

See Instruction Guide for further clarification and all contact information.

The following information is requested by IDEQ and/or EPA concerning the proposed impacts to water quality and anti-degradation:

☐ NO ☐ YES Is applicant willing to assume that the affected waterbody is high quality?
☐ NO ☐ YES Does applicant have water quality data relevant to determining whether the affected waterbody is high quality or not?
☐ NO ☐ YES Is the applicant willing to collect the data needed to determine whether the affected waterbody is high quality or not?

26b. BEST MANAGEMENT PRACTICES (BMP's): List the Best Management Practices and describe these practices that you will use to minimize impacts on water quality and anti-degradation of water quality. All feasible alternatives should be considered - treatment or otherwise. Select an alternative which will minimize degrading water quality

RECEIVED

MAY 18 2021

Through the 401 Certification process, water quality certification will stipulate minimum management practices needed to prevent degradation.

27. LIST EACH IMPACT to stream, river, lake, reservoir, including shoreline: Attach site map with each impact location.

Idaho Dept. of Lands
Mica Supervisory Area

Activity	Name of Water Body	Intermittent Perennial	Description of Impact and Dimensions	Impact Length Linear Feet
TOTAL STREAM IMPACTS (Linear Feet):				

28. LIST EACH WETLAND IMPACT include mechanized clearing, fill excavation, flood, drainage, etc. Attach site map with each impact location.

Activity	Wetland Type: Emergent, Forested, Scrub/Shrub	Distance to Water Body (linear ft)	Description of Impact Purpose: road crossing, compound, culvert, etc.	Impact Length (acres, square ft linear ft)
TOTAL WETLAND IMPACTS (Square Feet):

Application Number _____

**SINGLE AND TWO-FAMILY LOT
ENCROACHMENT PERMIT APPLICATION**

This information sheet and checklist must be completed when submitting an encroachment permit application. Incomplete applications will be returned without processing.

Encroachment Type:

(Check all that apply)

- | | |
|---|--|
| ☐ - Single family dock (58-1305) | ☒ - Riprap (58-1306) |
| ☐ - Two-family dock (58-1305) | ☐ - Waterline (58-1306) |
| ☐ - Mooring buoy (58-1305) | ☐ - Other – describe: _____ |

Applicant's Littoral Rights Are:

☐ - Signature of littoral rights owner is obtained if applicant is not the owner of the riparian/littoral rights

- | |
|--|
| ☒ - Owned, fee simple title holder |
| ☐ - Leased |
| ☐ - Other – describe: _____ |

Provide a Black/White Copy of Each Required Document on 8½"x14" or Smaller Paper:

- ☒ - County plat map showing both neighboring littoral lots.
- ☒ - Tax record identifying the owner of the upland parcel(s)
- ☒ - Lakebed profile with encroachment and water levels of winter and summer
- ☒ - General vicinity map that allows Department to find the encroachment
- ☒ - Scaled air photo or map showing lengths of nearby encroachments, distances to adjacent encroachments, and location and orientation of the proposed encroachment

Are Existing Docks or Other Encroachment(s) Permitted On This Parcel(s)?

- ☐ - No
☒ - Yes

Please attach a current photograph and a "to scale" drawing (see Document Requirements Above)

Permit # L95S5648B Date of Construction: 2018

What will happen to the existing dock or encroachment if this permit application is approved?

- ☒ - Remain unchanged
☐ - Complete removal
☐ - Modification
☐ - Other: _____

(Please note that old dock materials must be removed from the lake. Discarding these materials creates serious boating safety issues and offenders will be subject to prosecution and penalties.)

Does the Property Have 25 Feet of Lake Frontage for a Single-Family Dock or 50 Feet for a Two-Family Dock?

- ☒ - Yes
☐ - No

Total front footage: 100 feet

How Many Feet Does the Proposed Encroachment Extend Beyond the Ordinary (or Artificial) High Water Mark? 0 feet

The Proposed Dock Length Is:

- ☐ The same or shorter than the two adjacent docks
☐ Longer than the two adjacent docks
☐ Longer than the two adjacent docks, but within the line of navigability established by the majority of existing docks in the area.
☐ _____ feet and not located near any other docks or other encroachments.

RECEIVED**JUN 16 2021**

Idaho Dept. of Lands
Mica Supervisory Area

What is the water depth at the end of the proposed dock?

Summer level 6 feet
Winter level 0 feet

Does the Proposed Dock Exceed the Maximum Square Footage of 700 ft² for Single-Family Docks or 1,100 ft² for Two-Family Docks?

☒ - No

☐ - Yes

Total square footage: _____ ft²

Will the Proposed Encroachment Exceed the Maximum Width of 10 Feet?

☒ - No

☐ - Yes

If yes, explain why: _____

Will the Proposed Encroachment Be Located Closer Than 10 Feet to the Riparian/Littoral Right Lines Established With Your Neighbors?

☒ - No

☐ - Yes

If yes, what are the proposed distances? _____ feet

☐ - Consent of affected neighbor was obtained

Determining Riparian/Littoral Right Lines

Littoral right lines are not simple extensions of the upland property lines. Littoral right lines are generally perpendicular, or at right angles, to the shoreline. Curved shorelines or unusual circumstances may require Department Staff, or other professionals, to closely examine littoral right lines and assess the potential for infringement on adjacent littoral property owners.
