

Idaho Department Of Lands

**Notice Of Surface Mining Operations To Be Conducted By A
Public Or Governmental Agency For Maintenance, Repair, Or
Construction Of A Public Highway**

This form is two (2) pages, please read and complete all sections.

1. Operator: _____ Contact Person: _____
Address: _____
City: _____ State: _____ Zip Code: _____
Telephone: _____
2. ¼ ¼ Section: _____, Section: _____, Township: _____,
Range: _____ B.M. County: _____
3. Existing Affected Acreage: _____
Total Planned Affected Acreage: _____
4. Property Owner's Name: _____
5. Dist. to Surface Water: _____

This notice shall certify that _____ plans to operate a noncommercial surface mining operation for construction and/or maintenance of public highways and roads, on the lands described above. We agree and understand that the following conditions must be adhered to in conduct of the mining operation:

- a) If our operations disturb less than two acres, a reclamation plan is not required and only this notice shall be completed (Idaho Code § 47-1519). If our operations disturb two acres or more, a reclamation plan shall be completed as required by Idaho Code § 47-1506.
- b) Operation and reclamation of this material source will be in compliance with Idaho Code § 47-1509 and the Rules Governing Mined Land Reclamation (IDAPA 20.03.02).
- c) The material source will be regraded to stabilize all pit slopes and to blend with adjacent topography.
- d) Available topsoil and overburden will be stockpiled and protected from erosion so that it may be used in reclamation.

- e) Where possible, regrading and revegetation will be kept concurrent with the mining operation.
- f) Erosion and degradation of surface waters will be prevented by using and maintenance of nonpoint source erosion controls as required by IDAPA 20.03.02.
- g) Revegetation must be completed as specified in Section 140 of the above referenced rules.
- h) Development and operation of the source will comply with all other county, state and federal laws. Where applicable, the Bureau of Land Management Free Use Permit will also govern the operation of this source.

Draw a general location map on a separate page and include it with this notice, indicating main access routes to the material source and legal sections. Where applicable, attach a copy of your Bureau of Land Management Free Use Permit.
