Dear Mr. Eric Wilson,

Thank you for the opportunity to provide input on the proposed Minerals Rulemaking, Docket: 20-0302-1901.

I'm sure you're being hit with a lot of these pre-written pleas, but I just want to ask that you consider what they say - many Idaho citizens have valid concerns and feel that our land, which is an absolute treasure and for many of us our livelihoods, is constantly being trashed. Couldn't it, for once, just come to an end?

Thanks,

Nick
